**This is part #3 of the No Cost Affiliate Marketing system.** In this part, we will discuss building your free website. You need a website in order to properly promote your affiliate offer. It is a great place to generate traffic and it gives you a place to refer traffic to when you do marketing such as press releases.

**Your website is where you pre-sell the affiliate offer you are promoting.** A well-structured website also will pick up additional natural traffic from search engines when people type in keywords. Most of the time it will be natural search engine traffic. Especially if you have adhered to good practices and you are inserting keywords properly.

Most importantly, you need to create unique quality content. Your professional online appearance will boost your chances of making money. There are 3 places you can choose from to build your free website. We will discuss each one briefly. A free website means that there is no domain or hosting costs.

While there are many options online, these are the more popular options. Again, once you start making money, we do advise that you purchase your own domain and your own web hosting so that you can take it onto the next step.

- [www.wix.com](http://www.wix.com) – It offers professional templates for free. It is a popular builder for a website with a fresh look. It also has an easy to use platform. They have been around for some time and starting to get more recognition. They have plenty of templates that you can choose from.
- [www.blogger.com](http://www.blogger.com) – You will need a Google account. It ranks well in the search engines as long as you have good quality content with keywords. They use RSS feed to get your information out there. They are successful bloggers out there that use this platform. It is very popular and successful companies use it.
- [www.blog.com](http://www.blog.com) – It is a clean, easy to use interface. It offers you a chance to get your information indexed easily. Again, quality content that is also keyword rich.

It is very easy to get set up with any of these free sites. You will need to create an account and then login. You can watch tutorials and you can play around with the tools to see what is offered. **You will find that these 3 free website tools are all very easy to use and that they offer you plenty of options to pick from.**

It is time to get out there and choose one of these platforms and start building your free website. You should have selected your niche market, you should know what affiliate programs you will be promoting, and you should know what types of content you are going to create to promote that free site.

Then you can focus on good quality content so that you can get people visiting your website. Then it is just a matter of doing what you can to promote your website from start to finish.
