**In this lesson, we will be introducing you to the No Cost Video Marketing system.** Here is a quick overview of how this system will work for you. The first part is to find a niche market with hungry buyers. They are looking for a solution to a problem. You want to create several short videos. They will help the target market to understand the problem and to start to see the solution.

You want to build up credibility with them and show that you can help them. You want to answer the biggest questions that your market has. Offer practical solutions for them. Offer them a resource where they can resolve their problem. That can be in the form of an affiliate link for example, where you will earn a commission.

**The key to this system working effectively is to create a large amount of videos that are targeting different keywords.** The videos don't have to be very long but they do need to cover many different keywords. They can be between 1 and 3 minutes each but they do need to be powerful and packed with information.

Below each video, provide a link that they can click on that will get them to be on your email list. Send them to your landing page on Blogger or Wix. The key thing is to get them onto an email list of some sort. You can also send them to a pre-sale page for an affiliate offer or for your own product.

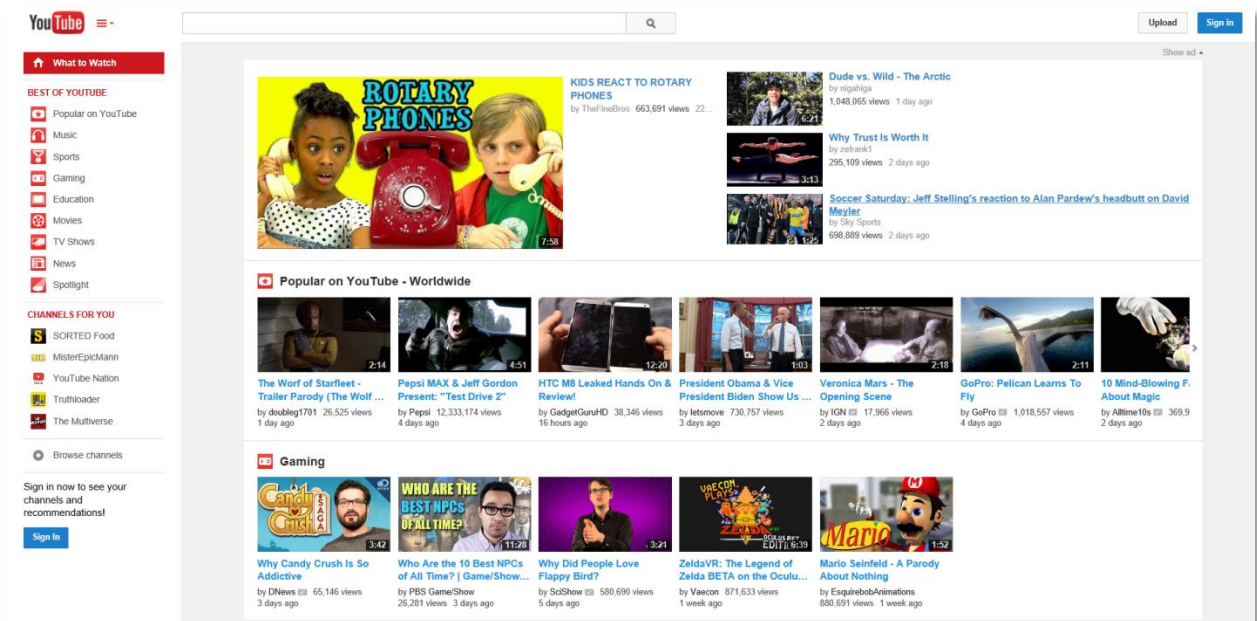

**You can use the description below the video to provide the link.** We will show you how to do all of this so don't worry. You should also show

that link at the beginning and the end of each video. This will ensure they can access it and always find it to get to that solution.

You can select various topics to make videos about and you can monitor their progress. You want to have lots of topics so you can create between 15 and 30 short videos. You want to be able to monitor them. You will learn how to create them, how to find the keywords, and how to make the videos work for your marketing success.

Once you see good results and profits, you can repeat the process and make another series on other YouTube accounts. You can be very successful doing this for multiple types of niches. The main site will use for this is the mother of all video sites, [www.youtube.com](http://www.youtube.com). It is the largest video site out there.

The key thing is to visit the next lesson so you can learn more in depth. The intention of this lesson was just a briefly overview so you get an idea of what it is all about. In the following lessons, we will show you step by step how to make this all work for you.
