**In this lesson, I want to demonstrate for you how to do keyword research.** It is a very simple process that involves identifying keywords you can leverage. We have talked about many of these no cost income stream methods the importance of using relevant keywords. On your website, on your sales page, in your articles, and in your videos. Keywords really drive your whole traffic strategy.

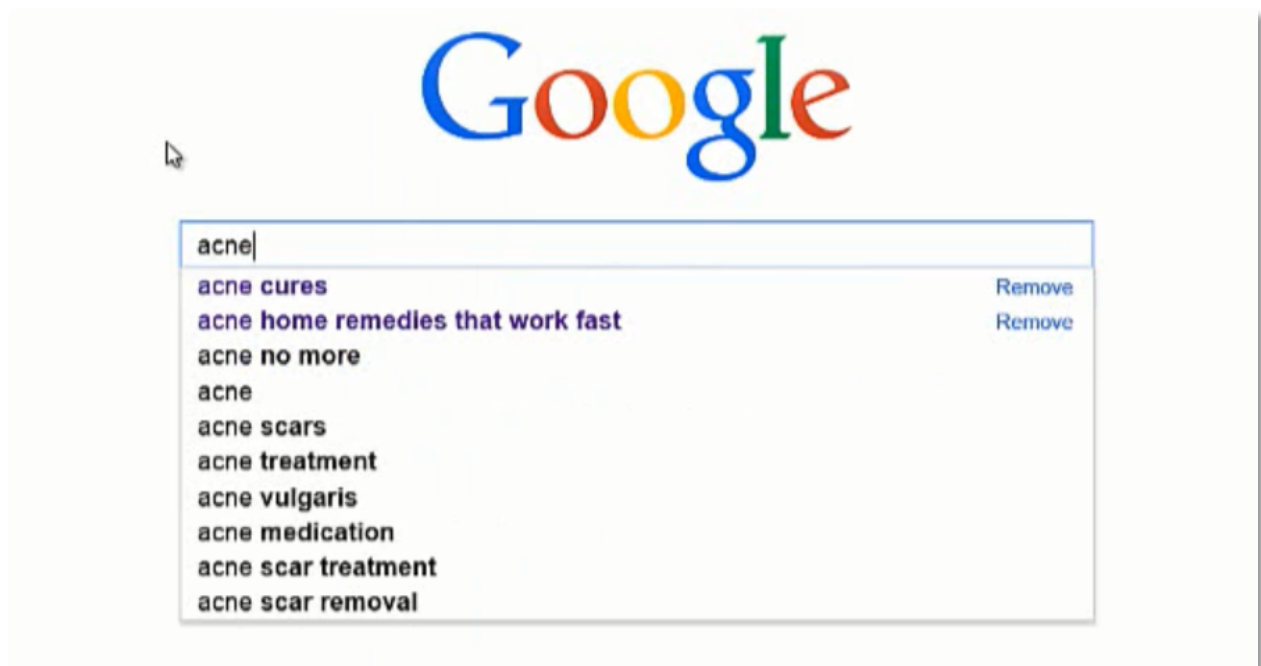

You want to be targeting keywords and phrases that people are actually looking for. What you want to do is go out and search. One way is to go to [www.bing.com](http://www.bing.com) and search. For example, acne cures.

What you will see are related searches with keywords. Copy them and paste them into a notepad file. Once you click on a suggestion, it will bring up more. Copy and paste them again. Continue this process through the list.

The beauty of this is that they are recommending what people have been searching for. You are targeting keywords that people are looking for. You may end up with some that are the same or very similar. The same type of process can be done by going to [www.google.com](http://www.google.com). At the bottom of the page it will give you additional keywords. Every single one of them can become a new video, a new article, the topic for a press release, etc.

This is a really cool and unique way to quickly target keywords. From this example, in just a few minutes I came up with a good long list of potential keywords to use for this niche market. There is an abundance of keywords out there. This works for any topic, any niche market you are going after.

This is a very simple, down and dirty, way for you to get tons of niche market keywords that you can use for your content. **Go to Google and Bing and type in your keyword.** Type in just your niche to start with. You can find the searches that people are looking for. **People are actually looking for the suggestions of keyword phrases they provide to you.**
