

# No Cost Income Stream Blueprint

## Part 48: Video Marketing - Uploading

LEGAL NOTICE: The Publishers have strived to be as accurate and complete as possible in the creation of this report, notwithstanding the fact that they do not warrant or represent at any time that the contents within are accurate due to the rapidly changing nature of the Internet.

While all attempts have been made to verify information provided in this publication, the Publisher assumes no responsibility for errors, omissions, or contrary interpretation of the subject matter herein. Any perceived slights of specific persons, peoples, or organizations are unintentional.

In practical advice books, like anything else in life, there are no guarantees of income made or any other specific results. Readers are cautioned to rely on their own judgment about their individual circumstances to act accordingly.

This publication is not intended for use as a source of legal, business, accounting or financial advice. All readers are advised to seek services of competent professionals in legal, business, accounting, and finance fields.

**This is part #4 of the NO Cost Video Marketing system.** In this part, we will discuss the principles for uploading your video. You want to go to [www.youtube.com](http://www.youtube.com) and create an account. You can use a Google account if you already have one. If you already have a YouTube account, you can skip this step.

We are going to go through the steps. Then we are going to present a lesson that shows you the details of it. You are going to upload your video. You will provide your keyword rich video title. This is going to be very simple. It is going to be the frequently asked question that your video is about. **Make sure the title of your video does have keywords for your niche.**

Look at other examples of videos that are performing well in that same space. Look at the amount of traffic that they are getting. Use keywords for your niche to go along with it. Create a good description with those keywords in it. Use the notes that you have taken and the advice or tips you have given in that video. This will help get people interested in getting people interested in watching it and draw more traffic.

**Try to include at least 2 sentences in your description.** More content isn't going to hurt you by any means. Include your website link at the beginning of your description. We will demonstrate how to do that in the video. It is very important that you do have that link in place. You also want to make sure you use the format [http://www \(your link\).com](http://www(your link).com).

The reason is that if you don't include http:// then the link won't hyperlink. It won't be clickable. People will have to copy and paste it into the browser to access it. This error will reduce your click through traffic rate. The reason you need the link at the beginning is so that people immediately see it.

**In your description, encourage people to give you likes and comments.** Encourage them to share with you their honest feedback. Let people know that you want that information. Make a call to action in your description as well. Check out the lesson that we have for you coming up next for best practices here.

One other point I want to make, and we did touch on this in a previous lesson. You want to make sure you are using the service [www.likesasap.com](http://www.likesasap.com). It is a free system for comments and likes. After you upload your video, I recommend that you use this free account. It allows you to get instant views, likes, and comments on your submitted videos. **It is an excellent free method to kick start your video campaign.**

After you get your video up, just go to [www.likesaap.com](http://www.likesaap.com). I recommend look at their service and build up free credit. Then you can use those credits to get likes and comments on your free video. The more of that you have, the more traffic you get. Soon, it will be a video with an enormous amount of views. In the next lesson, we will show you step by step how to get your video uploaded properly.
