**In this lesson, we are going to discuss part #4 of the No Cost Product Launch.** This part you can consider as optional. This is where you can create e-covers, and it isn't required. I do recommend it as it does offer value to your offer. Your e-cover is actually free if you use this system here. You can create a really nice e-cover that portrays your product and what it is.

**While it isn't required, it does add value.** They do help to sell the content better. People will know that they are going to get when they purchase your content. You can get a clean and professional e-cover by following these steps.

The first tool we recommend is [www.mycovermaker.com](http://www.mycovermaker.com).

They do have a paid solution where you can get some additional services for a monthly fee. They do offer some high quality e-cover templates for a nominal fee. They do have free ones though that are also very good.

A second tool that you may want to use is [www.onlineecovercreator.com](http://www.onlineecovercreator.com).
