This lesson will go over part #8 of the No Cost Product Launch. This is where you will create your sales page. You will do so using your sales copy you created in part #3 of the No Cost Product Launch. We will take you step by step through it so that you can take that created sales copy and put it onto your own sales page.

In part #8, you will create that sales copy. You will take it live and it will be found on the internet. The sales page is how you will sell your product. An effective, clean looking sales page will really help drive your sales. Remember, this is where it comes into play that that you have your copy in a text format.

It will make it so much easier when you are uploading it. You will be able to work with the content and make it fit the way you want to. JV Zoo makes it extremely easy to get your sales copy live without having to use any free website of any kind. You also don't need the download page, but we recommend it to build up your audience.

☐ YES | ☒ NO

WF Backup Sales Page URL (Must be a <http://jvzooforums.com/> URL)

We are going to show you a free way to do this. We have already shown you a lesson on how to set up your zip file. This allows you to get your buyer's information just through the JV Zoo website. In order for this to work right, you need to follow the steps. We are going to show you those steps as well.

On the sales page, you want to select JV Zoo Instant Sales Page. You can use Externally Hosted Page if you want to use Wix or Weebly. We don't recommend using those solutions. We recommend that you use the JV Zoo sales page options. That is your best bet and it gives you the best opportunity for you to get your content out there and it is also very easy.

Now is the time to get out there and set up your sales page. In the next lesson, we are going to show you step by step how to do this – live and on the screen.
