

No Cost Income Stream Blueprint

Part 64: Affiliate Marketing - Build Wix Affilate Website

LEGAL NOTICE: The Publishers have strived to be as accurate and complete as possible in the creation of this report, notwithstanding the fact that they do not warrant or represent at any time that the contents within are accurate due to the rapidly changing nature of the Internet.

While all attempts have been made to verify information provided in this publication, the Publisher assumes no responsibility for errors, omissions, or contrary interpretation of the subject matter herein. Any perceived slights of specific persons, peoples, or organizations are unintentional.

In practical advice books, like anything else in life, there are no guarantees of income made or any other specific results. Readers are cautioned to rely on their own judgment about their individual circumstances to act accordingly.

This publication is not intended for use as a source of legal, business, accounting or financial advice. All readers are advised to seek services of competent professionals in legal, business, accounting, and finance fields.

In this lesson, we are going to show you step by step how to use **Wix.com**. This is a free site that you can use to build a mobile friendly, clean and professional affiliate website. Go to www.wix.com. If you are new, the homepage has a button called Start Now.

CREATE YOUR FREE STUNNING WEBSITE

44,900,556 users and growing. Get online now!
Easy to customize. No coding. Google friendly.

[START NOW](#)

Put in your **name** and **email** to get started.

If you already have an account, login. Then to go **Create a New Site**.

The screenshot displays the Wix 'My Account' dashboard. At the top, the Wix logo is on the left, and navigation links for Templates, Explore, Features, My Account, Premium, and Support are in the center. On the right, the user is logged in as 'Hello jacobjonesbiz' with a 'Log out' link. Below the navigation bar, the 'My Account' title is centered, followed by links for Manage Premium: Packages, Domains, Mail Boxes, Vouchers, Billing and Payment, and Settings. A promotional banner offers an upgrade to the 'Yearly Unlimited Savings plan' for \$29, including a free domain and \$250 in ad vouchers. The main content area features a search bar and a list of two existing sites: 'free-golf-guide' and 'im-review'. Each site entry includes a thumbnail, the site name, its URL, and a 'Manage & Edit Site' button. A '+ Create new site' link is at the bottom left. On the right sidebar, there's a section titled 'Upgrade your Wix sites and get even more' with a list of benefits like 'Your own domain', 'Removes Wix ads', 'Extra storage', 'Google Analytics - site stats', 'Professional hosting', 'Premium support', and '14 day money back guarantee'. An 'Upgrade Now' button is below this list. At the bottom right, there's a 'Wix eCommerce - Shopping Cart' section with a shopping cart icon and the text 'Set up a beautiful shop in minutes'.

In this example, we are going after the golf niche. Let's go to Business Services Sports and Recreation.

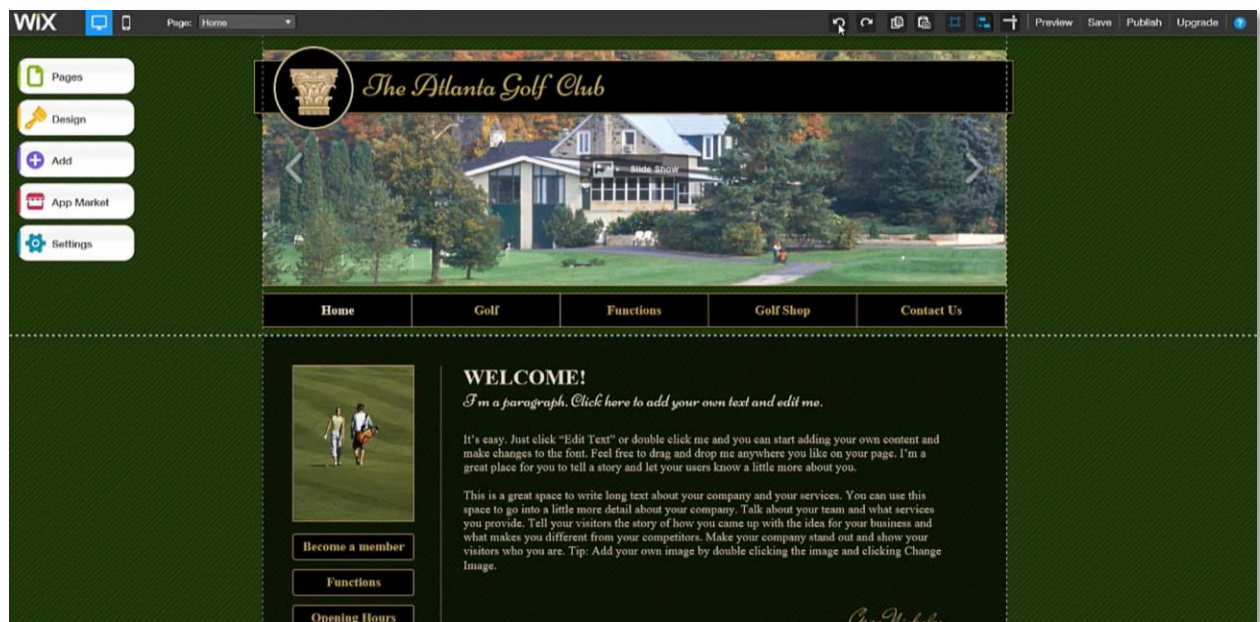

Scroll through and find something that will be a good fit. Once you find one that you like, you can pick one and work with it. They have one that is all about golfing. **Click on view** and it will open it up in an editor so that you can see how it looks.

If you like it, then you can work with that to create your affiliate site on that platform. Select Edit This Site and it will open up Wix editor.

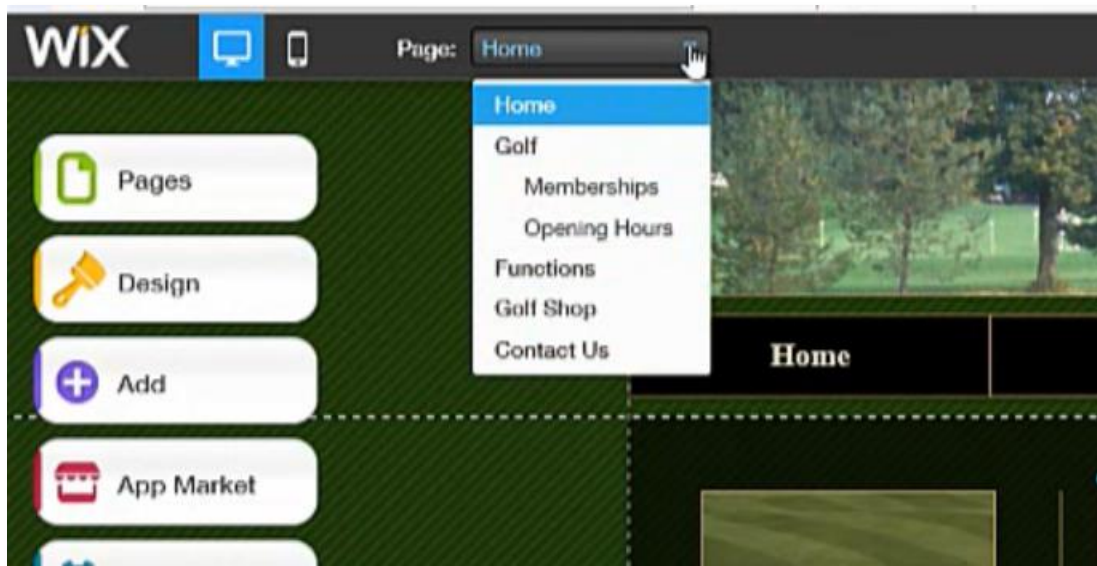

It will take a moment for it to load. Once it does, you will have all the freedom in the world to make changes and tweaks as you see fit.

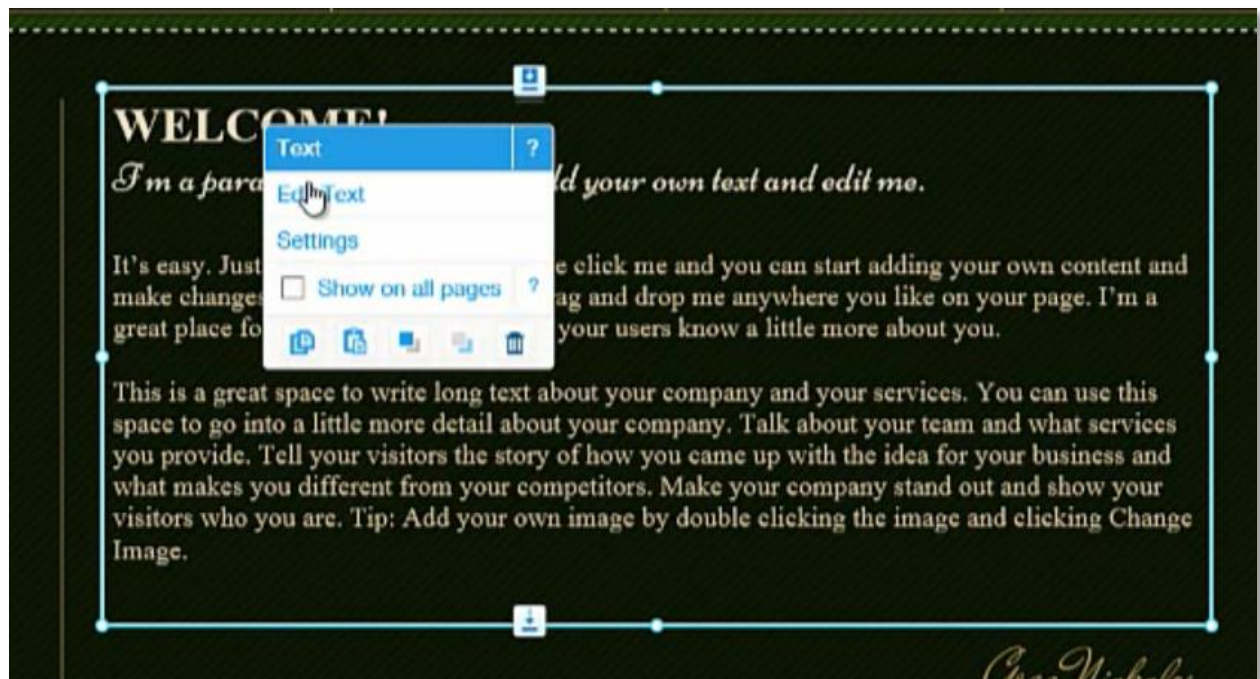

Wix is very simple to work with and it has a point and click platform. At the top, you will see the list of all of the pages you can play around with.

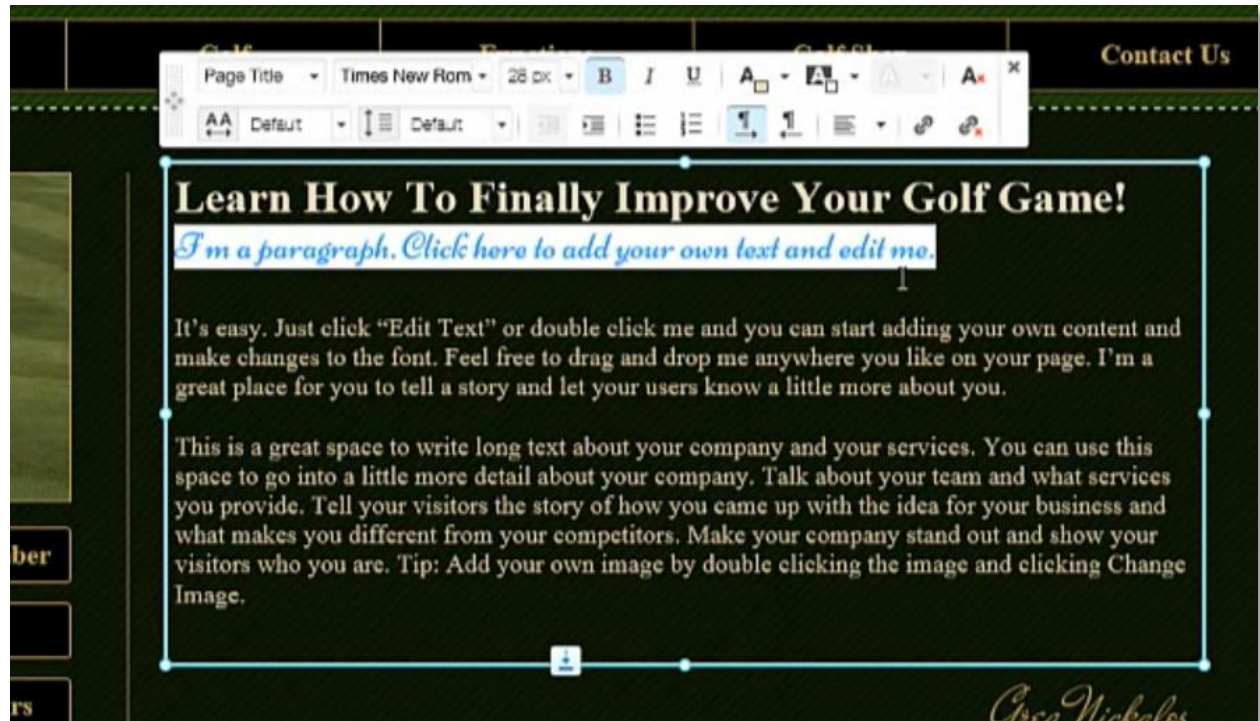

You can start out with the homepage as that is where it is all about.

Click on **Edit Text** and enter your catchy headline here. Then you can open with strong content typed in below that. There are a few things you can do from that homepage. You can send people to your opt in or you can send them to your affiliate pre-sell. You can get the code to embed your opt in form to your free website if you want.

You can type in **CLICK HERE** for... and then offer them a free product such as a record or an e-book.

Open up a browser and open your www.clickbank.com account for this example. That way you can link them up. You may be using www.cj.com or another source. You want to find their process for linking up.

Inside of Clickbank, you can click on Promote for products that you are interested in.

The screenshot displays the ClickBank Marketplace interface. At the top left, the 'MARKETPLACE' logo is shown with the tagline 'Choose from thousands of great products to promote'. A search bar on the top right contains the text 'Find Products: how to break 80'. Below the search bar, a sidebar on the left features an advertisement for 'pytch' (ClickBank's High-Performance Mobile Monetization Service) with a 'Learn more' button, and a 'Resources' section with a 'Recently Removed' link. The main content area is titled 'Results' and includes a 'Marketplace Help' link. It shows 'Displaying results 1-10 out of 226 (pg. 1 of 23)' and 'Results per page: 10'. The results are sorted by 'Keyword Relevance'. The first result is 'Official How To Break 80(tm) Golf Instruction Program', described as a 'Best-selling Ebook And MP3 Files For All Golf Skill Levels'. It lists two offers: '\$37 And \$47' and a 'New Upsell Provides Great Conversions'. The URL 'http://www.howtobreak80.com/affiliate_tools.htm' is provided. To the right of the product name, the 'Avg \$/sale' is listed as '\$29.16'. A 'PROMOTE' button is visible next to the product. At the bottom of the result, statistics are shown: 'Stats: Initial \$/sale: \$29.16 | Avg %/sale: 70.0% | Avg Rebill Total: \$0.00 | Avg %/rebill: 1.0% | Grav: 5.15 | Cat: Sports : Golf'.

Enter your account information which is your Clickbank affiliate program. If you don't have that already set up, we do have some tutorials for you to look at. You can also go through the simple to follow sign up process at www.clickbank.com.

Affiliate Program: Promote Products for 'BREAK80'

You can earn 75.0% for each paying customer you refer to this product. For details please see the details page (one):

Account Nickname:

Tracking ID (Optional):

This is the link you are now sending people to. Click it and then copy. Go back to HTML editor in Wix so that you can paste it. Select web address and then open in a new window. Now you have a clickable hyperlink that is ready to go. You can also add a short review below that on the homepage.

Affiliate Program: HopLink for 'BREAK80'

ClickBank pays you 75.0% when you sell BREAK80's product. To refer a customer send them to this domain name:

<http://7f4dcpsxhp83jr7734k7av3t05.hop.clickbank.net/>

Copy the following HopLink HTML code and add it to your web page:

```
<a href="http://7f4dcpsxhp83jr7734k7av3t05.hop.clickbank.net/" target="_top">Click Here!</a>
```

WARNING: Due to the possibility of transcription errors, we recommend copying the HopLink from this page instead of typing it manually. To copy the HopLink, click on the text of the HopLink and either right click and select copy or hit Ctrl-C.

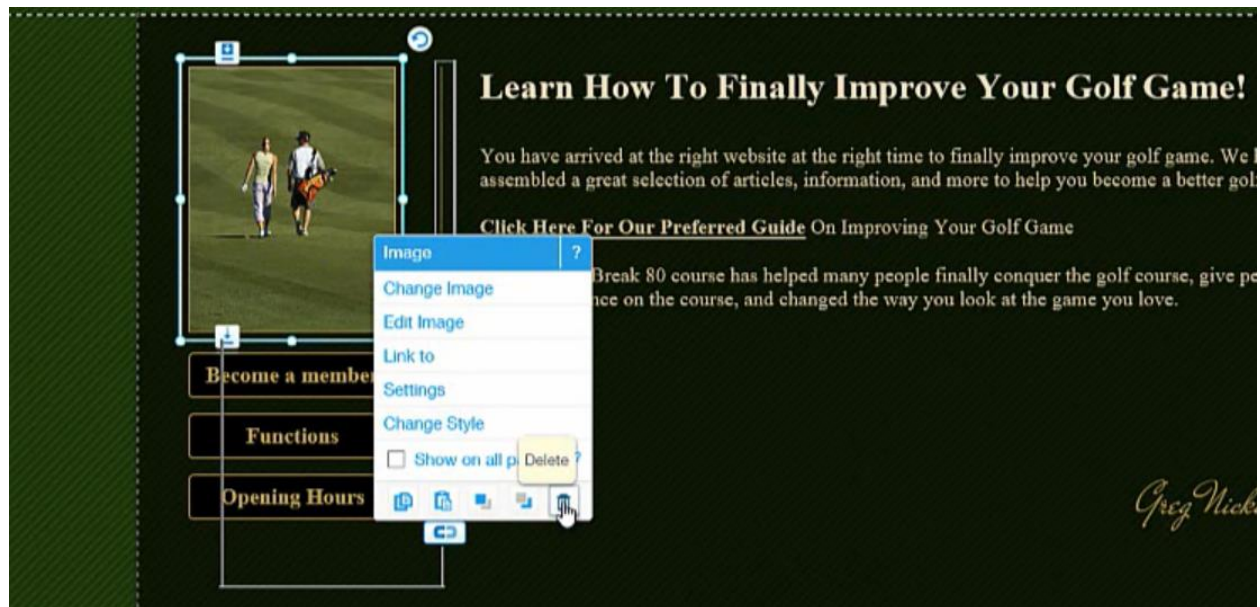

This HopLink has been encrypted by HopLink Shield. It represents an encrypted version of the traditional HopLink format of <http://affiliate.vendor.hop.clickbank.net>.

English

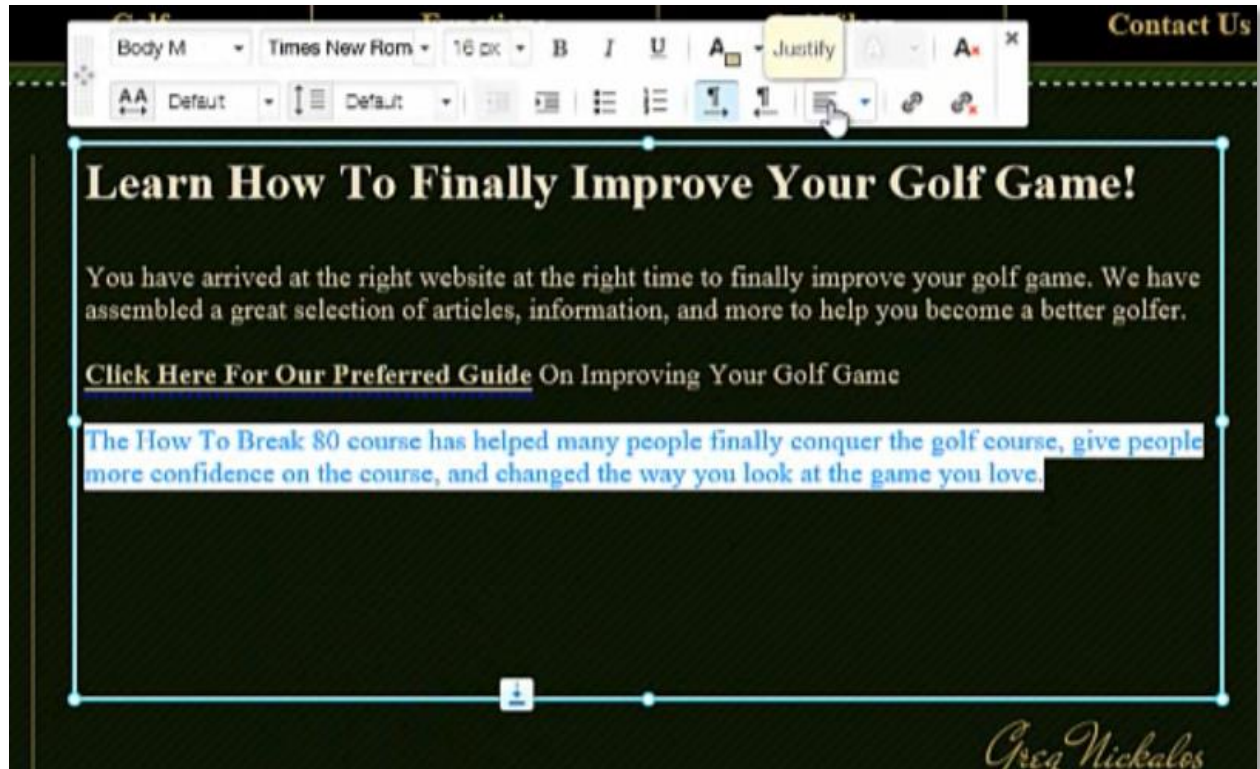

What is this?

Small SAVE

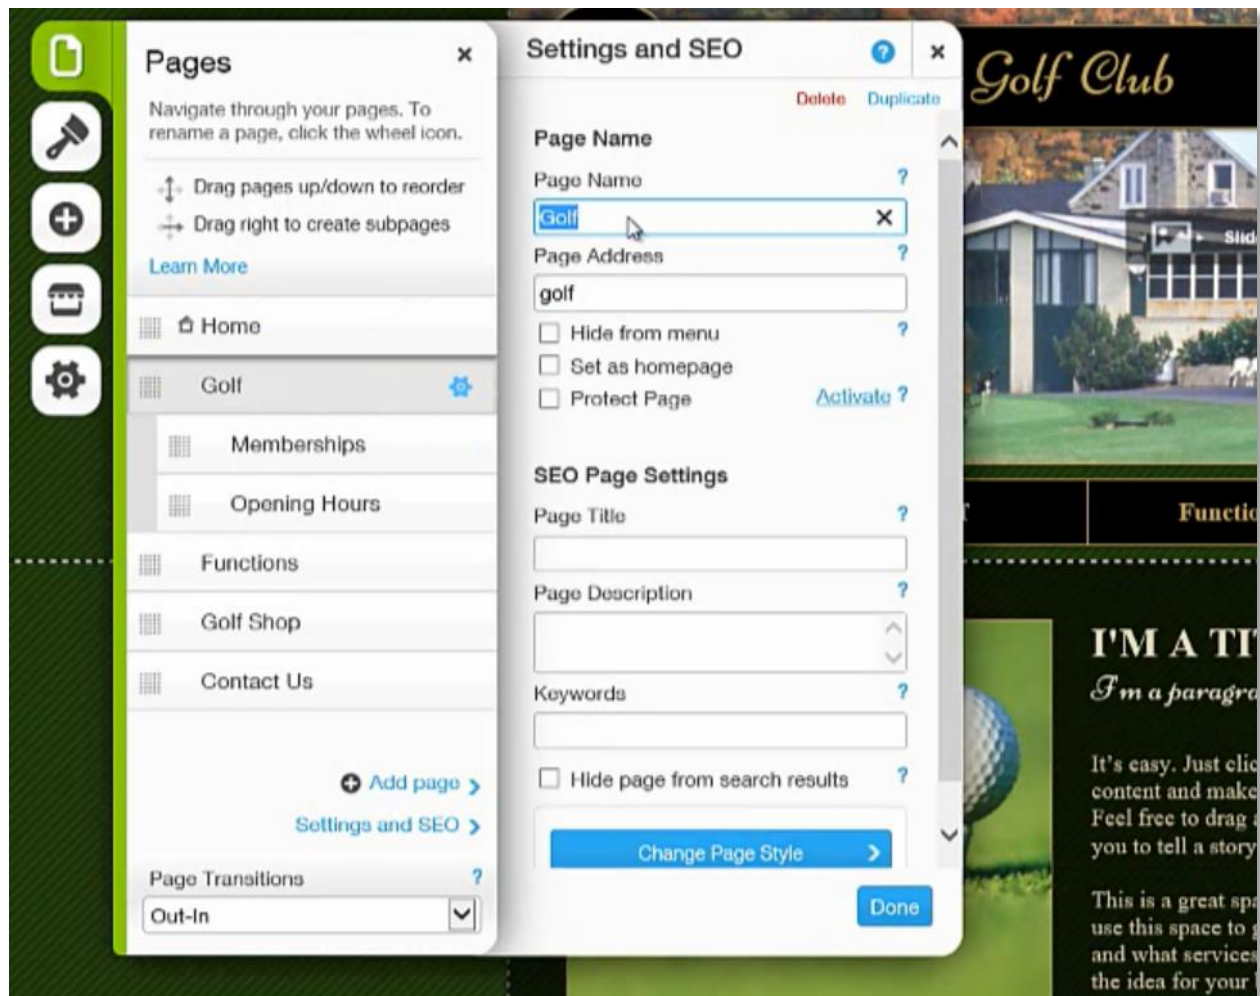

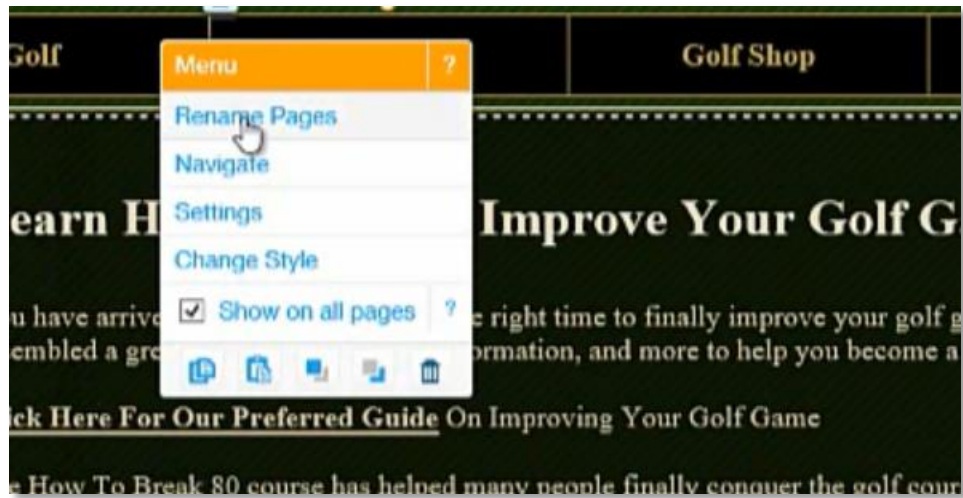

You can also add in your own elements, but that gives you the basic idea. With that hyperlink, people can be taken to the other site. With Wix, you can leave in images on the template that relate to your niche market. You can also delete those that you don't want. If you want to change them, you can use free image sites that we previously mentioned in lessons or add your very own. Wix has some images too that you can include.

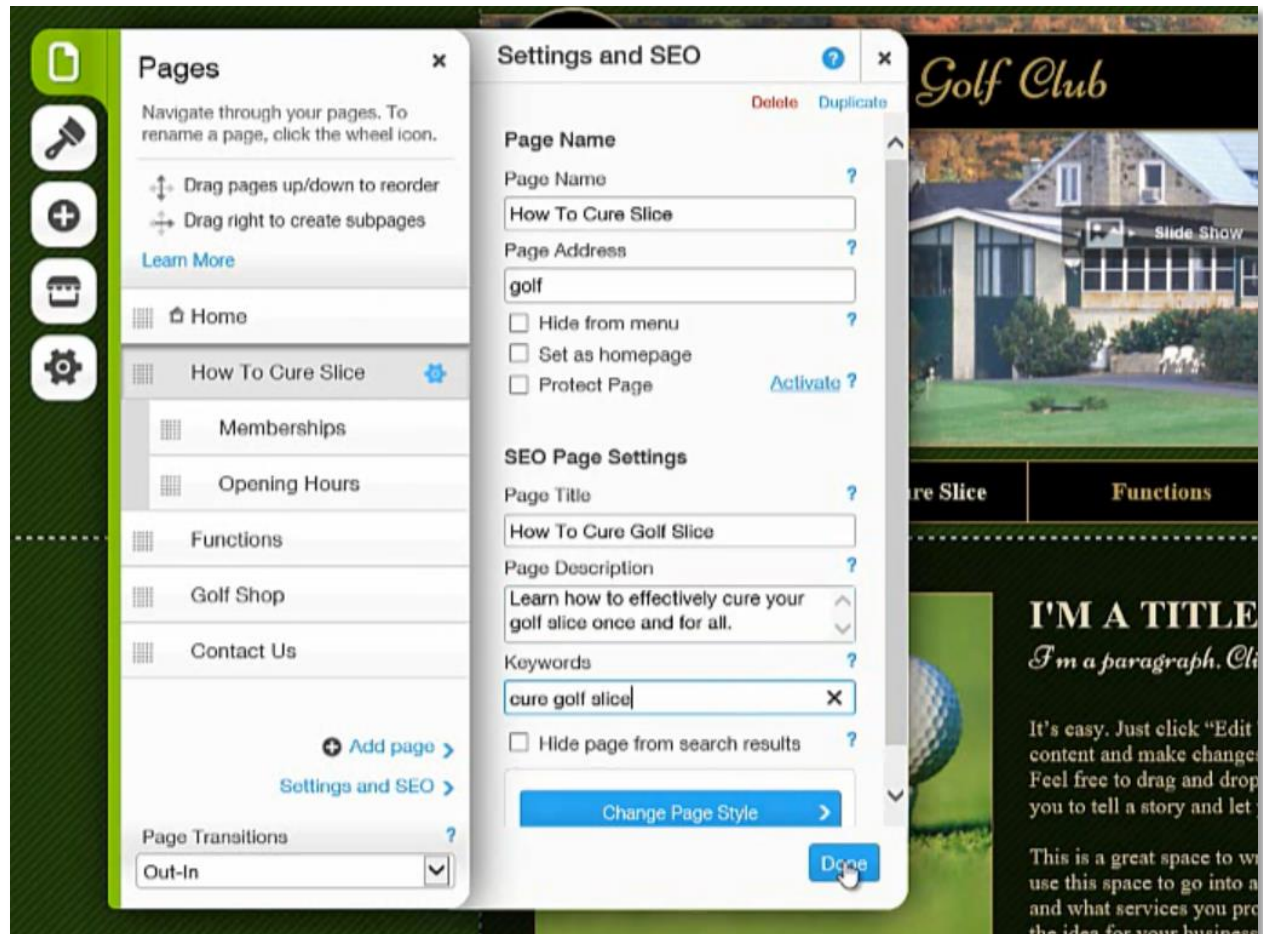

For this example, you want to do some other things with the homepage. For example, center and justify it to make it look better.

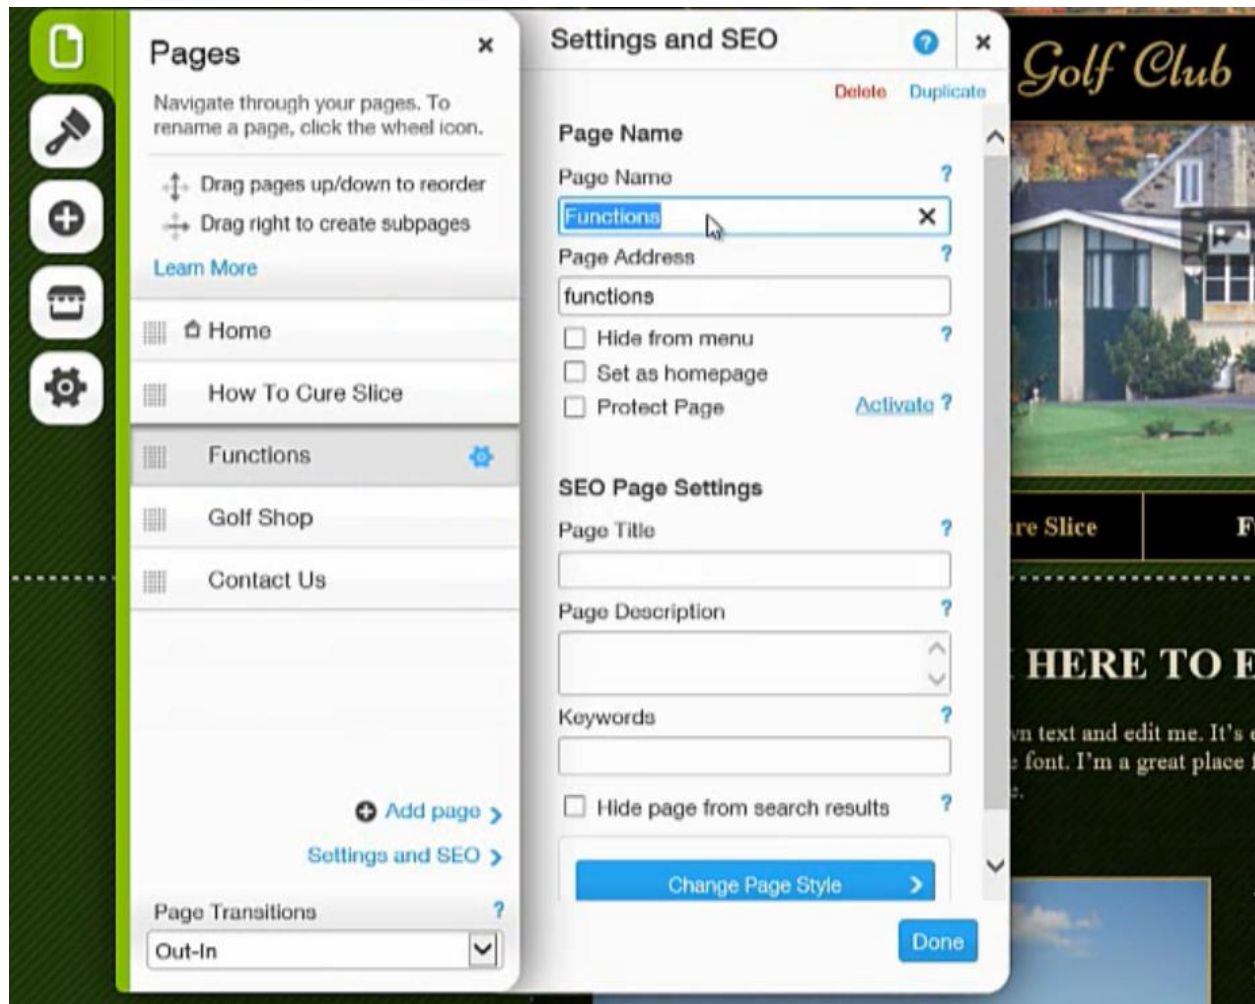

There are lots of possibilities and you can change the look and the images. You can also rename your pages in the menu once you are done and you are ready to save them.

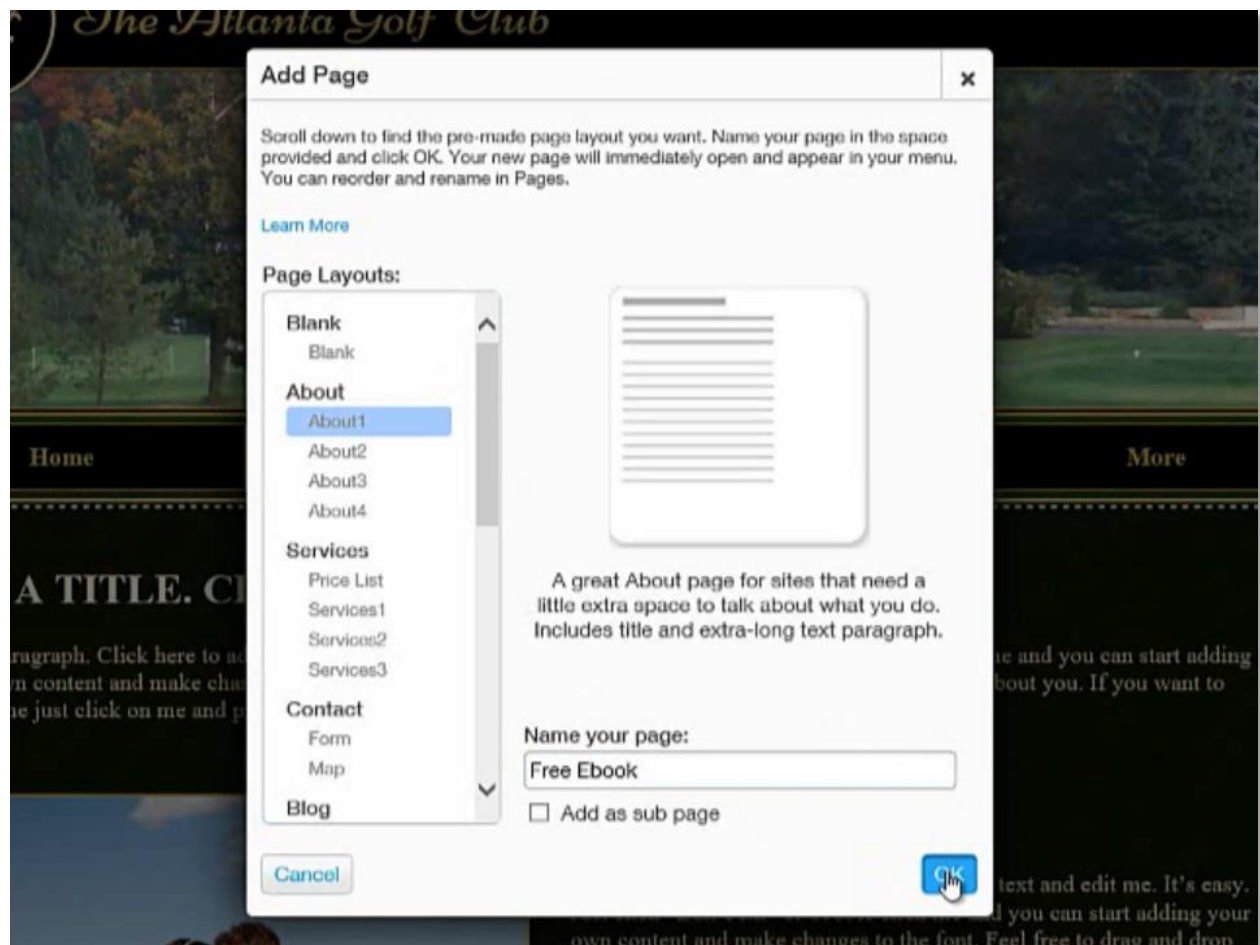

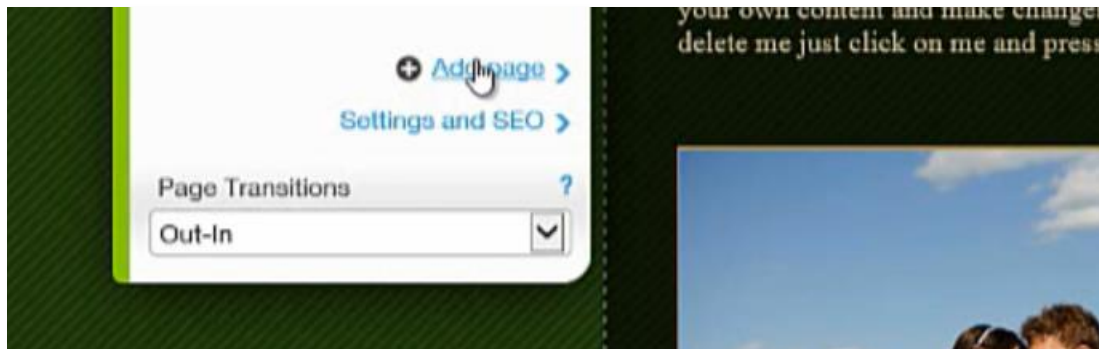

Play around with it all so that you get what you want. You can change the page titles too for search engines. Make sure you put in descriptions with your rich keywords so that the search engines can pick them up.

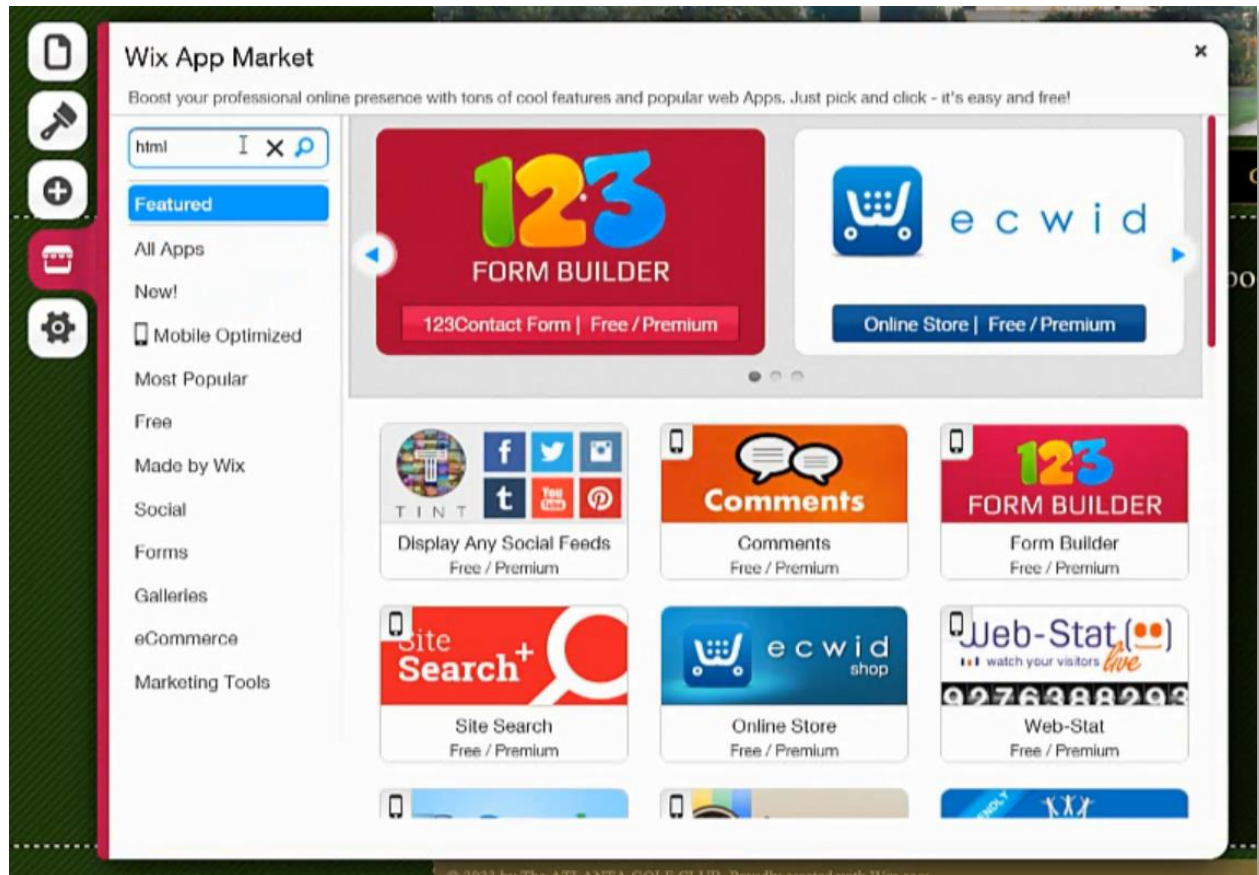

Under functions, you may want to make some changes. For example, the recommended resource. You can add in a title and description here. Got to the Contact Us area so that you can include that information as well. If you want to add a page to the menu, you can name it and create a new one.

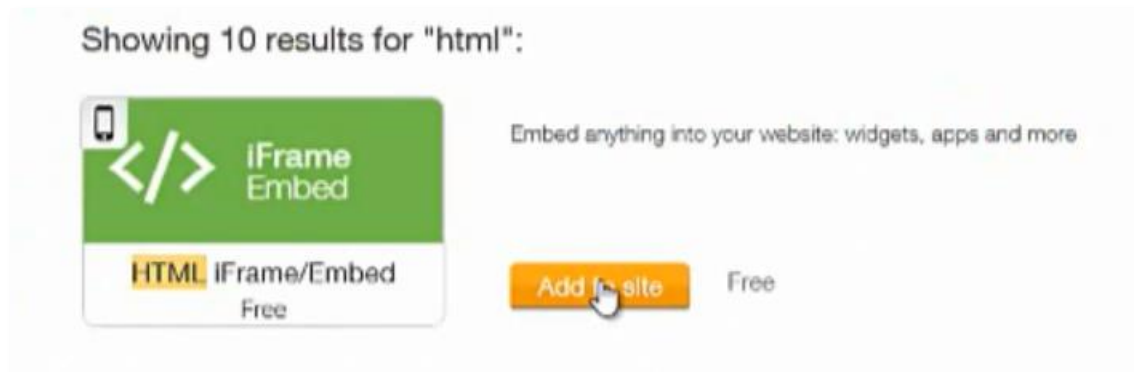

Let's say that for this example we want to add a page for a free e-book. You can choose where on the menu you want it to show up. Just click and drag to drop it in the place where you want it on the menu order. If you want a page to not show up on the menu, just select hide.

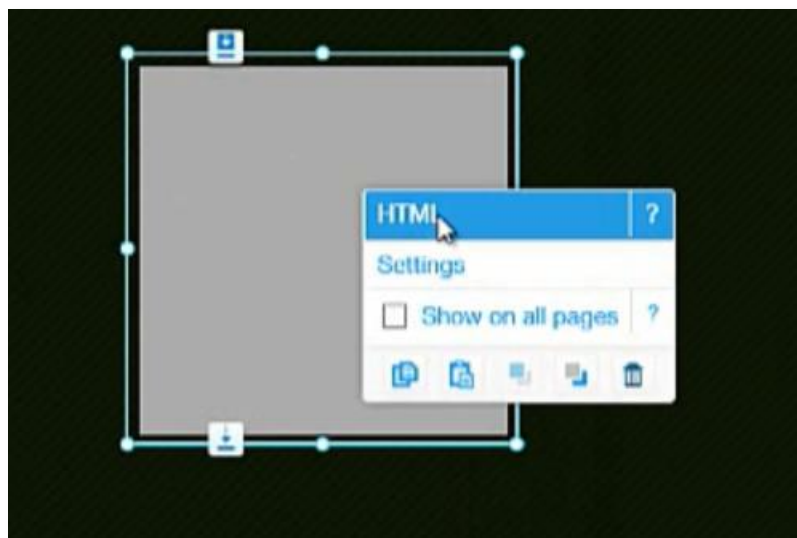

That is how you work with the different pages. You can go to the various pages and add in your opt in form where you want to. This is perfect for adding a mini squeeze page. Go to the app market and select HTML

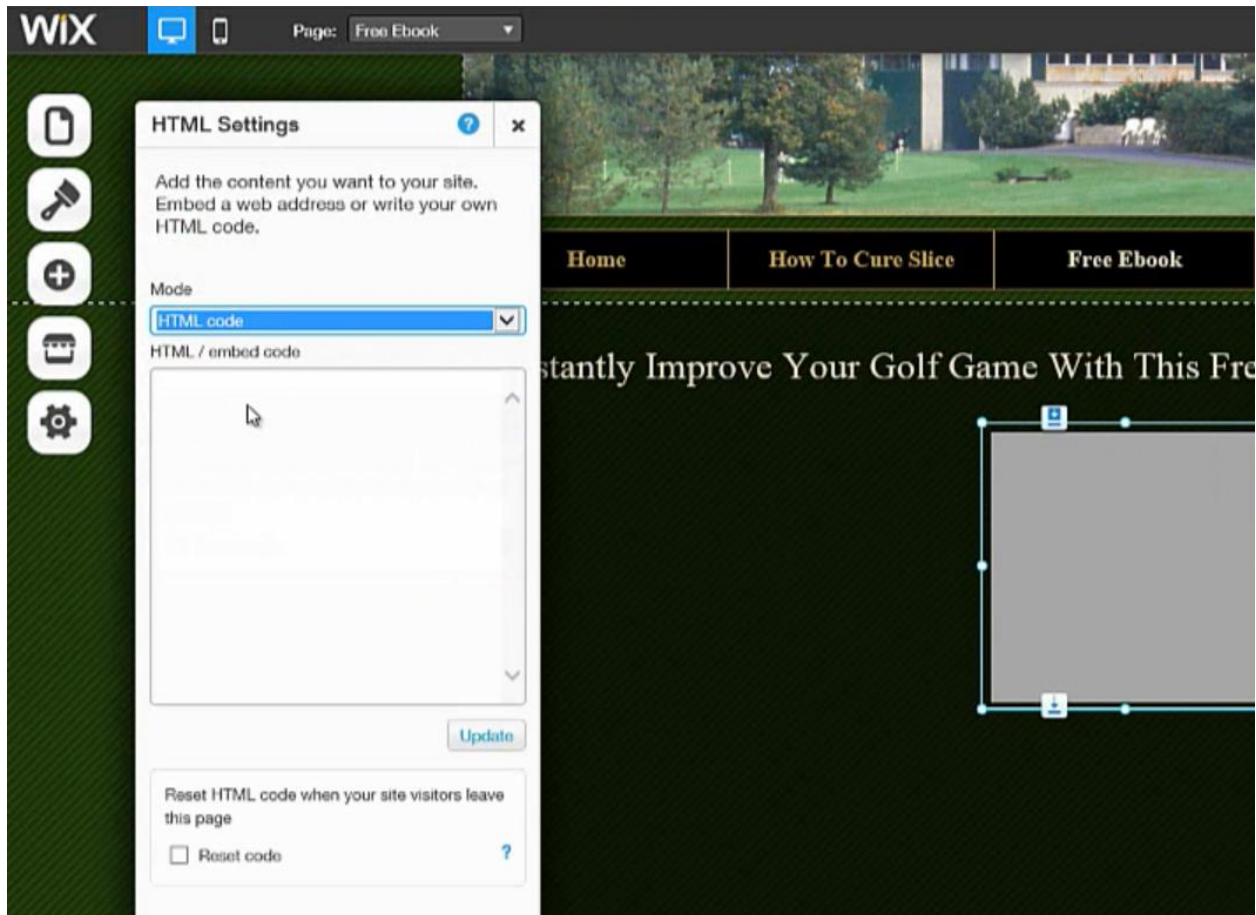

Then, add it to the site.

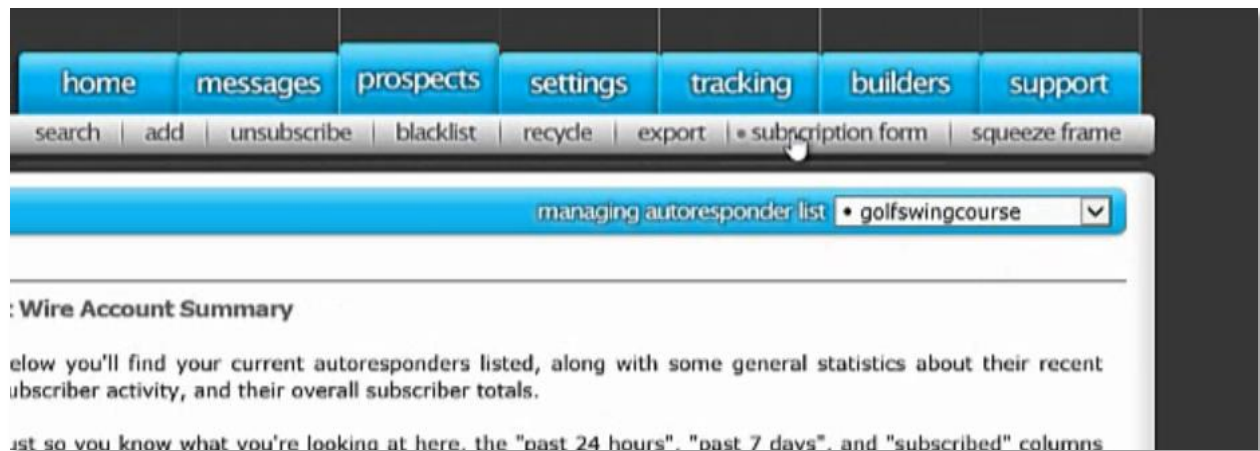

From settings, **select HTML settings.**

Then you can add in your code for your Listwire opt in box and you will automatically have your opt in form.

Let me go back and show you how to do that. Login to your account at www.listwire.com. Choose the golf product here for the example. Go to **Prospects Description Form**.

Then, click where it says, “**get code.**”

Copy the code for your product.

The screenshot shows a window titled "Form Code" with a "Close" button in the top right corner. The window contains the following text:

To add this List Wire subscription form to your website, copy the javascript code below, and paste it anywhere into the body of your website.

The code below is the javascript code for the subscription form. If you are comfortable working with HTML, you can use the code below.

The JavaScript code is highlighted in blue and is as follows:

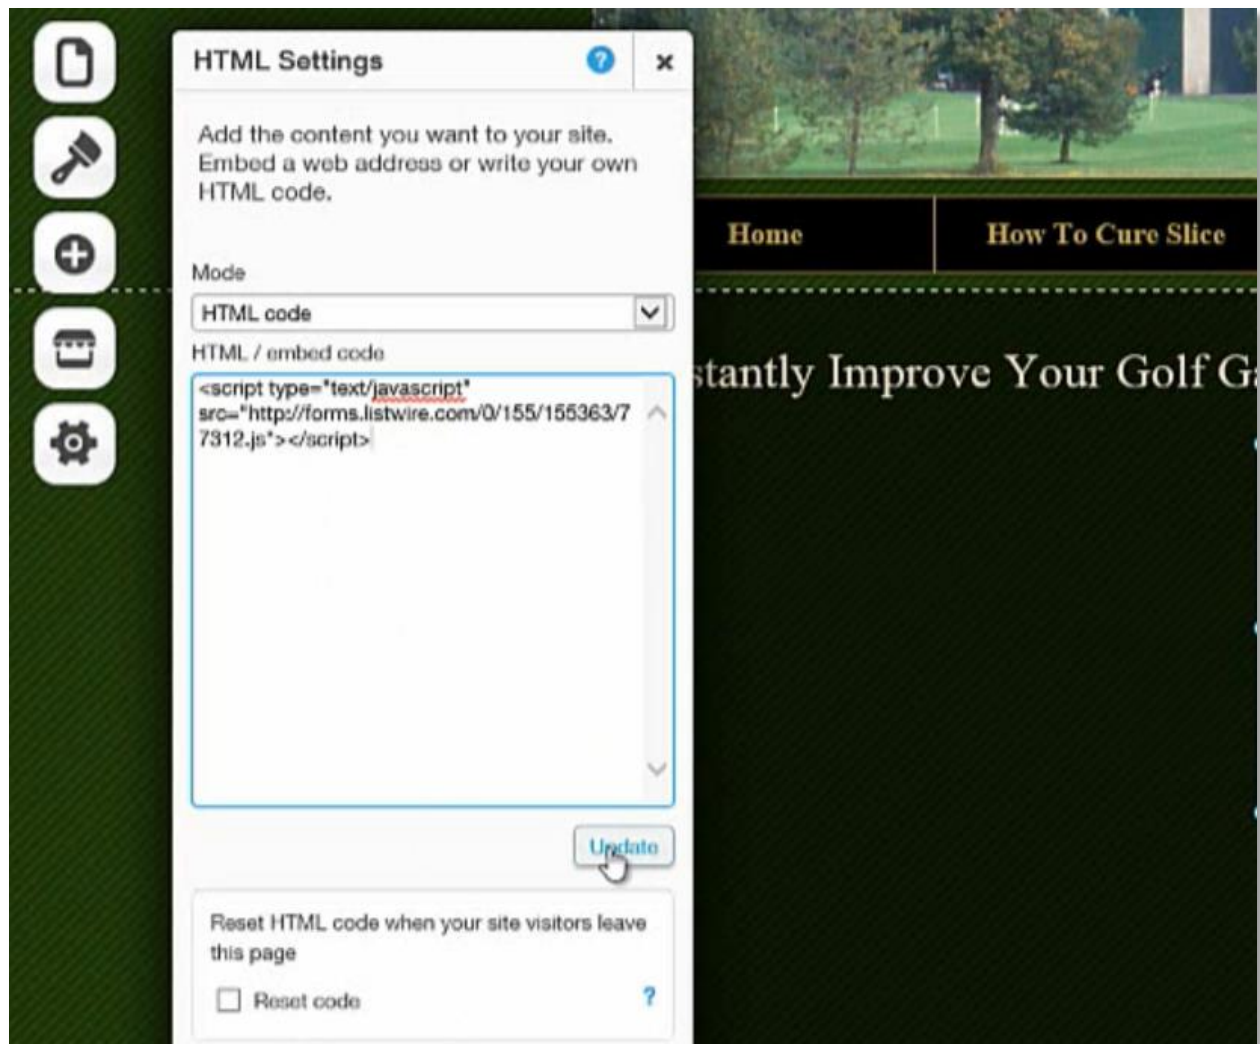

```
<script type="text/javascript" src="http://forms.listwire.com/js/12.js"></script>
```

A context menu is open over the JavaScript code, showing the following options: Undo, Cut, Copy (selected), Paste, Delete, Send to OneNote, Select all, and Inspect element.

The HTML code is as follows:

```
<center><table border="0" cellpadding="0" cellspacing="0" style="margin: 0px; padding: 0px;">
<tr><td align="center" valign="top" style="padding: 0px 10px 0px 0px;">
<form action="http://www.listwire.com/subscribe.php" method="post">
<input type="hidden" name="bot_action" value="form_subscribe">
<input type="hidden" name="bot_track_code" value="">
<input type="hidden" name="bot_pass_standard" value="0">
<input type="hidden" name="bot_pass_custom" value="0">
<input type="hidden" name="bot_account" value="golfawingcourse">
<input type="hidden" name="bot_redirect" value="http://www.slideshare.net">
<input type="hidden" name="bot_web_form_id" value="77312">
<table width="380" border="0" cellpadding="0" cellspacing="0">
<tr><td colspan="3" valign="middle" style="padding: 0px 0px 10px 0px;"><html>
</td></tr>
<tr><td height="32" width="10%" align="left" valign="middle"> </td>
```

Paste it into **Wix** and **click Update**.

You can drag the box around to make it fit the way you want it to. You can edit the text, center and justify it if you want to. It is as simple as point and click. You want to play with it to get the hang of it and to understand how it works. Then it will be easier for you to work with.

listwire
[click here for your free autoresponder](#)

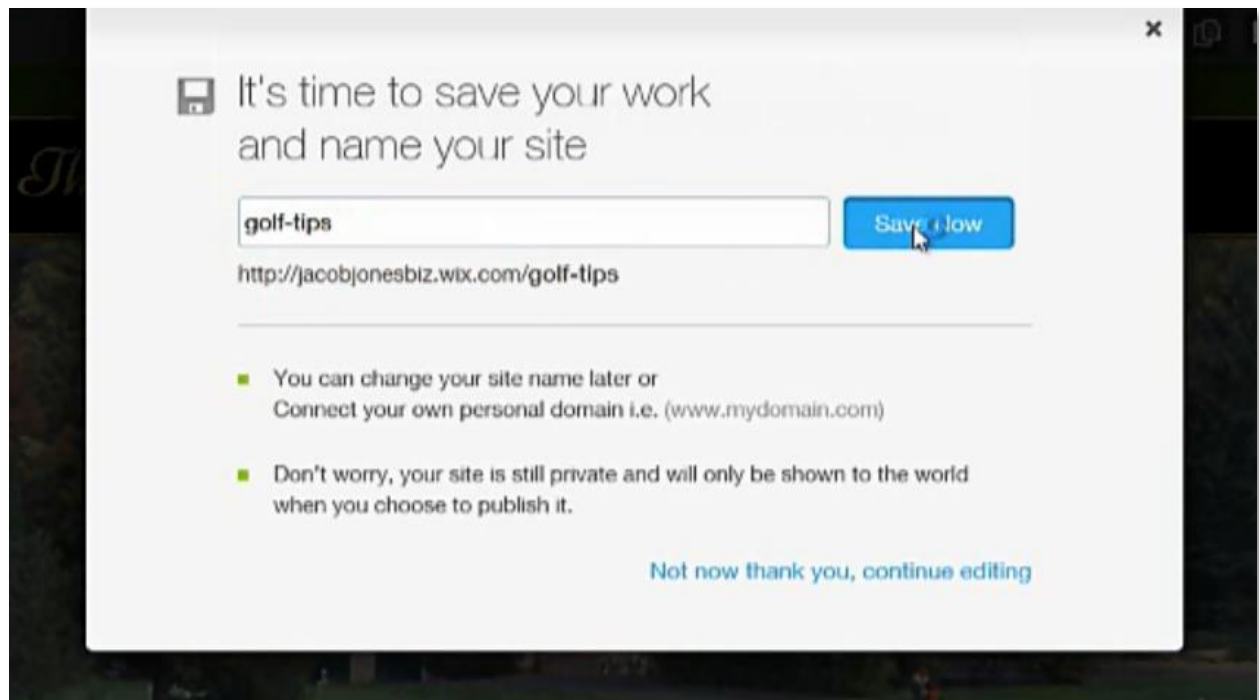

That is how you get your free e-book there as well. We can really edit any page here. You can add in your own images. You can link to Amazon products. You can do a series of Amazon articles or other content. There are a lot of possibilities within this page editor.

You can upload an e-cover image here too if you would like to. Perhaps you already created one or selected one to promote a product. You can upload that image here too. That will really help to spice up the page a bit. You can add in links to other pages. For example, an article page from one of the pages on your website menu. This allows you to do your own navigation. It is all just a matter of selecting and clicking. It is simple to use.

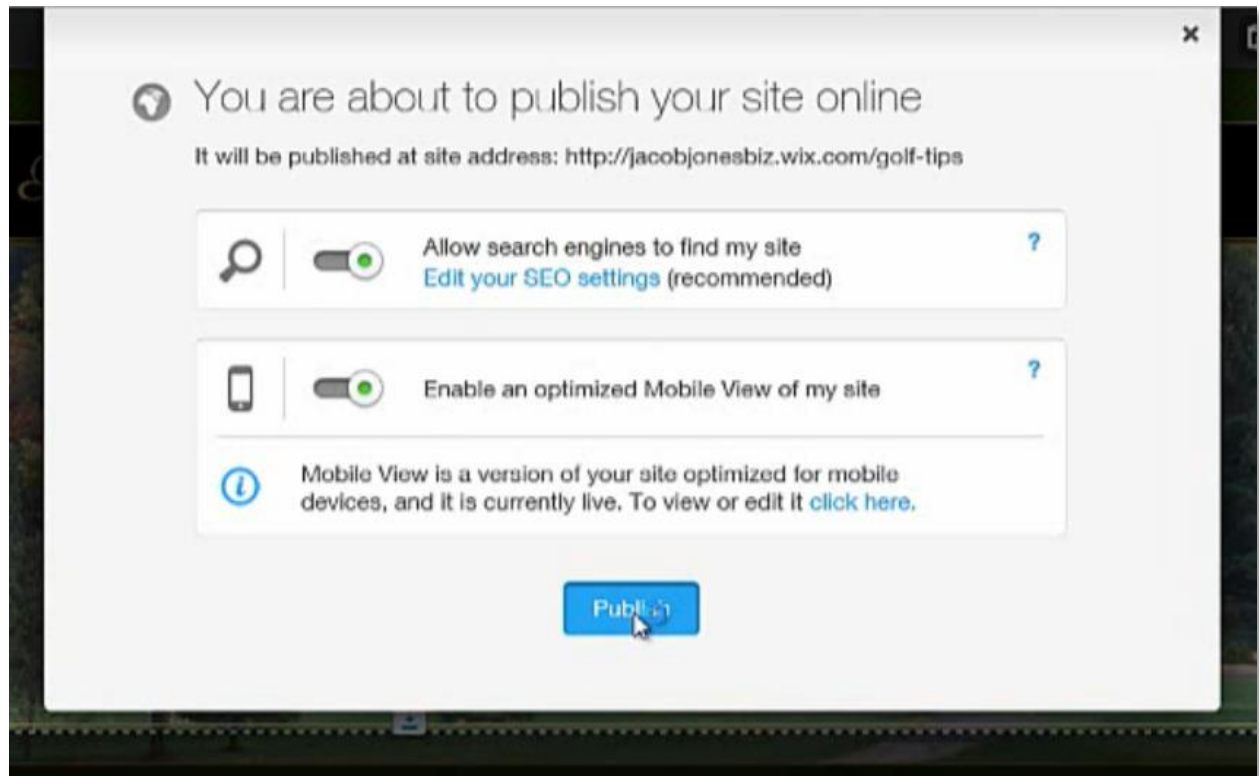

When your website is done, you can click on publish and save your work.

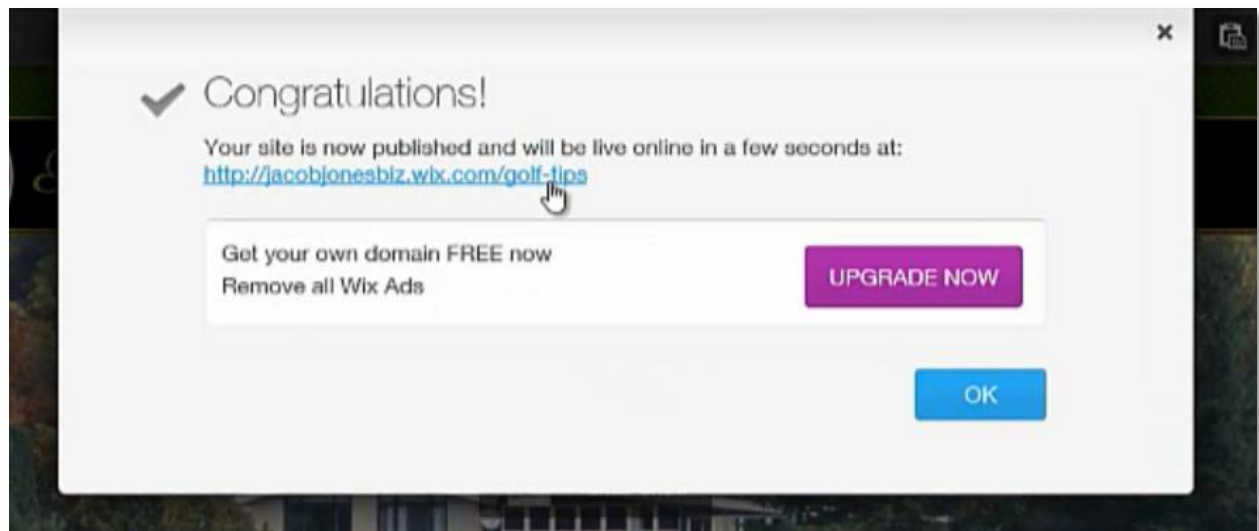

You will need to give your site a name. Then click Save Now.

You want to publish it with the green enabled so that the search engine can index your content. It is a preferred method to also select for it to be shared to Twitter and Facebook.

Once it is published, you will get a link.

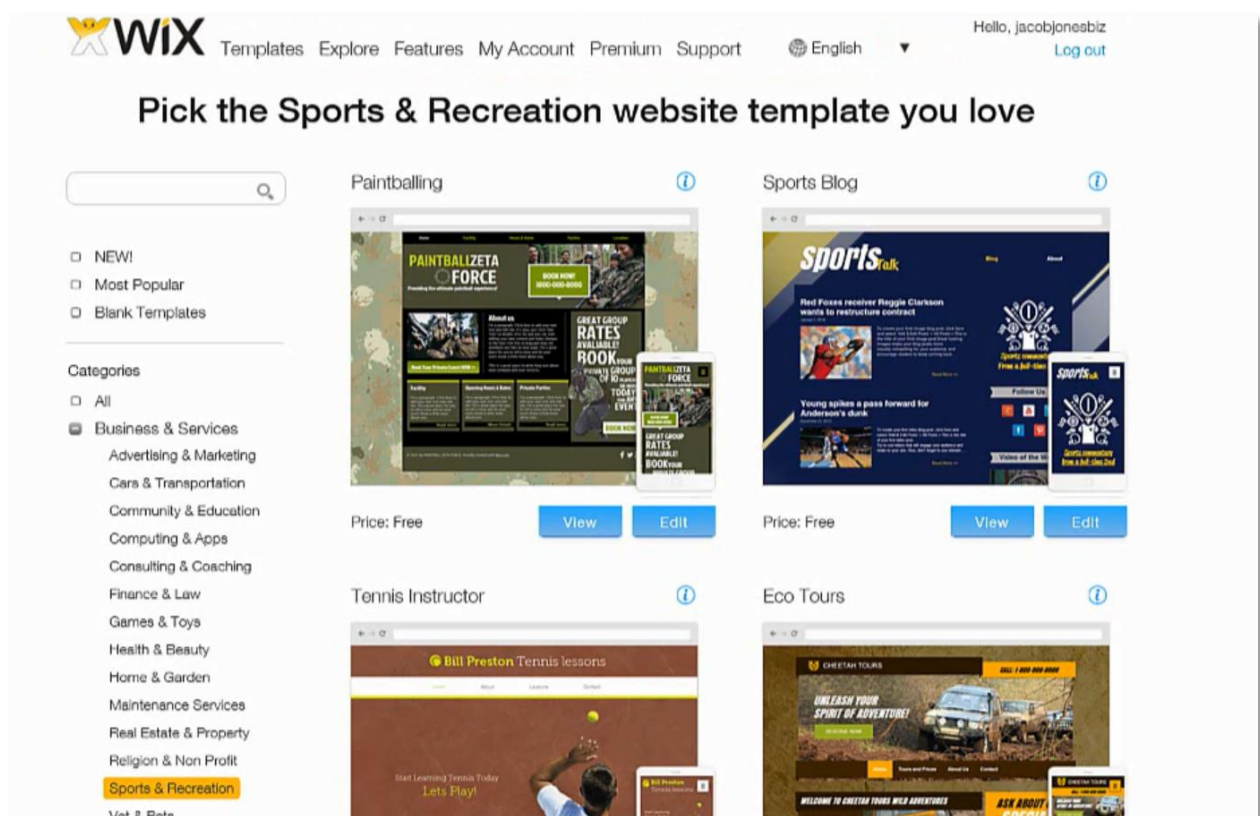

There you have it, how your site is completed. Review it and if something looks off or missing, then you can make changes. It gives you a lot of functionality and possibilities within this website. Wix is a great tool, it is just a matter of getting familiar with it and using it.

You can check out how your site looks on your phone too. You can go to any part of the website and edit it any time you want to in Wix. It is seamless and simple. When you are done, just put it on publish and it will update those changes.

Check your affiliate link too and make sure it takes you to the right place when it is clicked on. You can use any Wix editor. You don't need to use the template that I choose for this example. Make sure that you like how everything is showing up and that the links work. Create a clean layout and a clean website.

They offer templates for every niche market. You can find what you want and build a phenomenal website. You can promote it and start making some money. When you do, then you can upscale it and get your own domain and your own hosting to further promote it out there.
