In this lesson, I want to show you how you can go out there and post **your own Fiverr gig**. You want to go to the top of www.fiverr.com where it says Start Selling. You do need to have your own Fiverr account set up. Choose **Create a Gig**. Choose what you would like to do. Type in what you would like to do. For example – I will write a 500 word SEO optimized article for \$5.

Then select the category – writing and translations for this example. You can choose website content as the subcategory. For the gallery, you can submit an article that you have written and a photo. In the description, tell them again what you will do. Tell them that you will include a keyword rich article that sells on your website for only \$5. I am a professional content writer and I have done so for bestselling authors and professional athletes.

BROWSE...

You can play around with it and even highlight certain parts of your content. You can add italics and bold. Turnaround time – put 2 or 3 days and then say thank you. Play around with the font and get it to look the way you want. You can put tags such as article writing and content writing. **Place a comma after each tag.** Make sure you are realistic with the time you set. If you know you can get it done within a day, it is going to increase the number of gigs.

You can set instructions for the buyer. You can tell them to please post with the topics they want you to write about and thank them. **Click save and continue.**

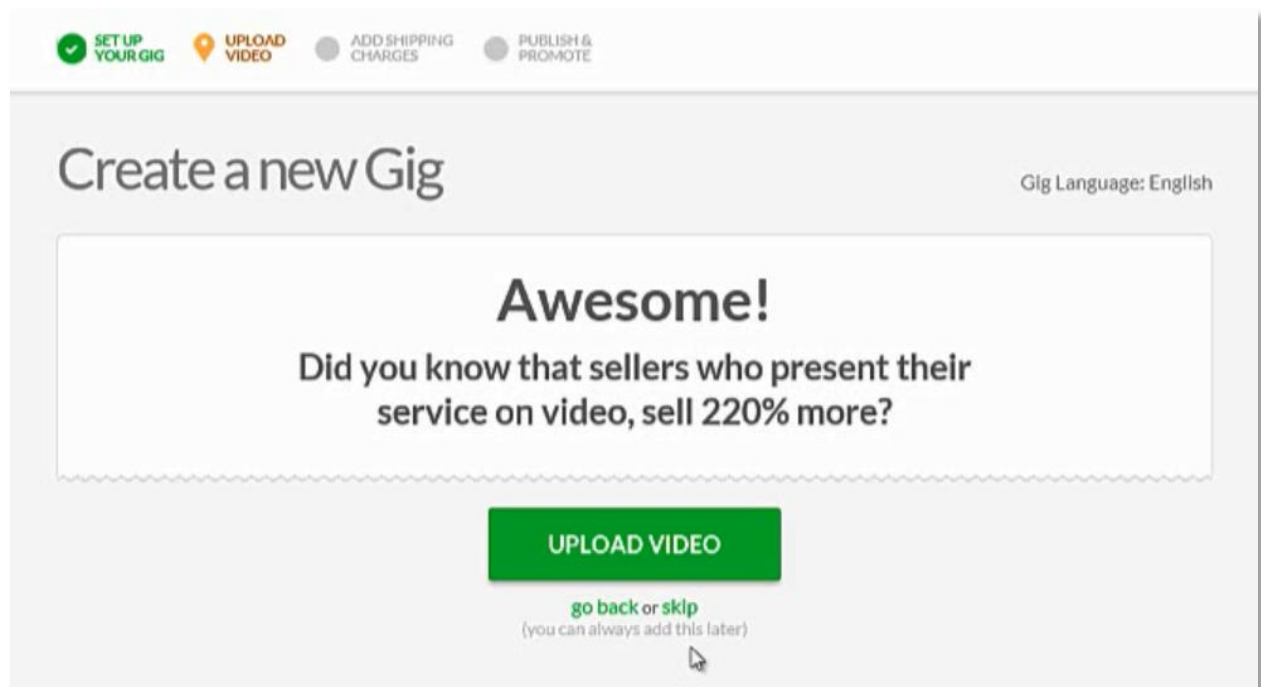

The screenshot shows a form for configuring a gig. At the top, there is a section for "DURATION" with a label "Maximum" and a dropdown menu set to "1 DAY". To the right of the dropdown is the text "To deliver". Below this is a section for "INSTRUCTIONS FOR BUYER" with a large text area. The text area contains the text "Please post what you want me to write about. Thank you!". At the bottom right of the text area, it says "55 / 450 Characters". At the bottom center of the form is a green button labeled "SAVE & CONTINUE".

DURATION	Maximum	1 DAY	To deliver
INSTRUCTIONS FOR BUYER

They do want you to add at least one image. **Click on an image and then you can add one.** Obviously, you want to add an image for the type of content you can create for them.

If there is anything wrong with the listing such as adding an email address, they will give you a warning. Make corrections and submit again. When it is all accepted, it will upload your image. It will also ask you if you want to upload a video. You can do a short screen capture video. You can also put a copy of a video of you talking about who you are and the services you provide. This will get you more gigs. For this example, we will skip it.

Now you can pick publish your gig. Once you publish, your gig will be live. Once you sell a few, you can go through and start adding gig extras. This was demonstrated in the previous lesson about how to use micro job sites to enhance your freelancing income.
