

No Cost Income Stream Blueprint

Part 17: Product Launch - Autoresponder Setup

LEGAL NOTICE: The Publishers have strived to be as accurate and complete as possible in the creation of this report, notwithstanding the fact that they do not warrant or represent at any time that the contents within are accurate due to the rapidly changing nature of the Internet.

While all attempts have been made to verify information provided in this publication, the Publisher assumes no responsibility for errors, omissions, or contrary interpretation of the subject matter herein. Any perceived slights of specific persons, peoples, or organizations are unintentional.

In practical advice books, like anything else in life, there are no guarantees of income made or any other specific results. Readers are cautioned to rely on their own judgment about their individual circumstances to act accordingly.

This publication is not intended for use as a source of legal, business, accounting or financial advice. All readers are advised to seek services of competent professionals in legal, business, accounting, and finance fields.

In this lesson, I am going to show you step by step how to set up your free autoresponder. Go to www.listwire.com.

There is a short video you can watch from the creator. Next, you will need to select a username. For these lessons, I use the username jacobjones. Then you create an account password.

client testimonial

I was sceptical at first.

"Then I saw my list building explode exponentially overnight from this free service. It has so many more bells and whistles built in than one would think from an autoresponder. It's like a traffic generating machine. You made me a true believer."

Create Your Free List Wire Account:

You're just a few minutes away from having your very own, completely free List Wire account. Simply fill out and submit the form below, and your account will be created and ready for use immediately.

And if you need a little help with anything along the way, just click the name of the field, directly to the left of the input box, and a few more details about that field should instantly appear.

Your Contact Information

First & Last Name:

Business Name:

Then you need to add your first and last name. For business name, put your name again if you don't have one set up yet. You can put in a domain name if you have. You will need to have your address entered. This is to stay in compliance with the CAN SPAM Act. If you are going to send emails, you need to have a physical address. Some people get away with using a PO Box just fine. I am going to create one here for the form.

Fill in all the fields with your personal information including address, phone number, and email. Then you can click to create your account. That part is all pretty much self-explanatory.

The screenshot shows a web form titled "LIST WIRE ACCOUNT INFORMATION". The form is divided into two main sections: "Account Information" and "Your Contact Information".

Account Information:

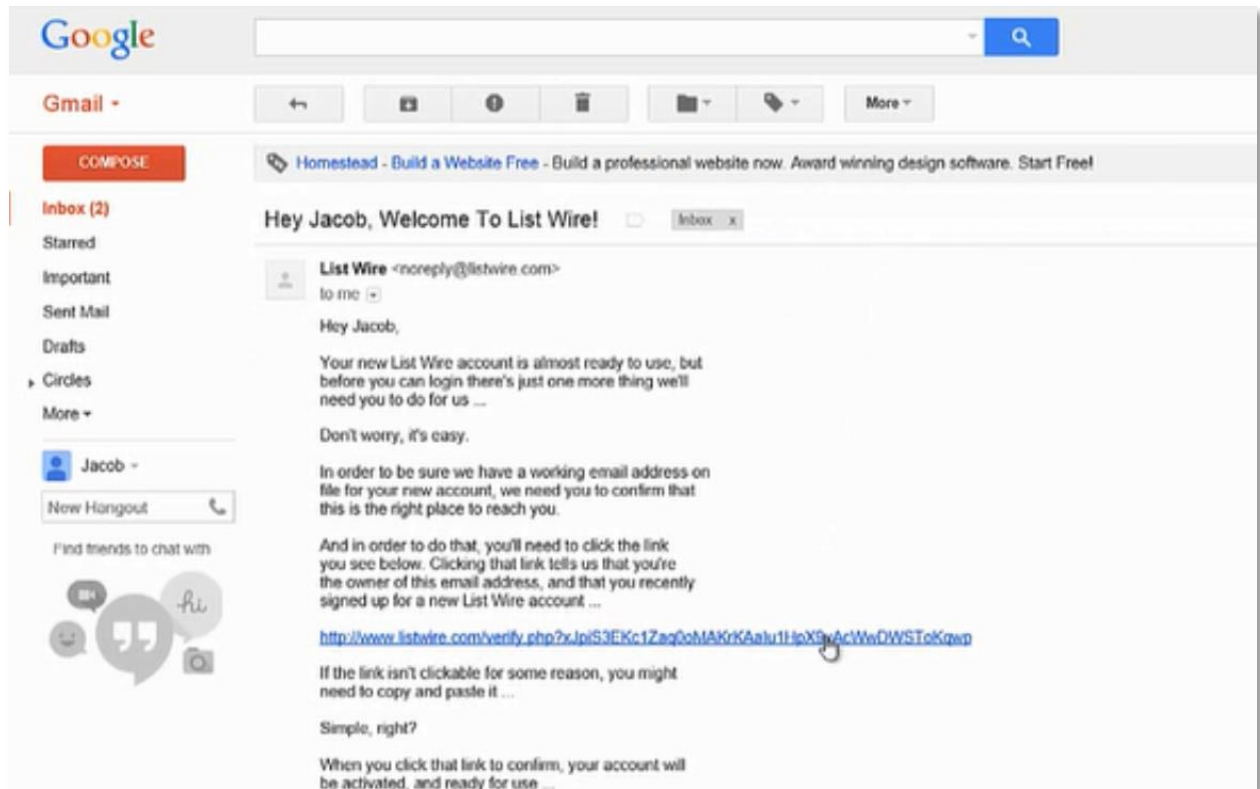

- Account Username: (username available)
- Account Password:
- Verify Password:
- Referred By: List Wire Member [No referrer](#)

Your Contact Information:

- First & Last Name:
- Business Name:
- Address Line One:
- Address Line Two:
- City:
- State / Province:
- Zip / Postal Code:
- Country: (dropdown menu)
- Phone Number:
- Email Address:
- Verify Email Address: (with a small 'x' icon)

At the bottom of the form, there is a button labeled "Click Here To Create Your List Wire Account".

Then you will need to go to your email inbox to verify. You will need to click on that link before you will have successfully set up your account at www.listwire.com.

Now your account is verified and ready for use. Click to login and start using the account. If there is any problem with your address or other information, you will get a message when you login. For example, the address I made up doesn't really exist so it isn't allowing it. You need to make sure your information entered is legitimate and correct for it to accept it.

In the next lesson, we will cover the next part of the process. I am going to show you how to set up your very first autoresponder. We will get it set up so that you can start to build your list and have it active on the internet.
