**We are now on part #6 of the No Cost Product Launch.** For this part, we are going to go over how to set up your free autoresponder. Keep in mind, this part isn't required, just like the e-cover. It is highly recommended. This is going to be how you can create a buyer's list. Everybody that purchases your product during the launch can get onto your e-mail list.

Then you can promote to them again with future products your create. It can also be a way to promote to them for products you promote through affiliate programs you found at JV Zoo or other related sources. You want to capture your buyer's emails to help you sustain your business. This is a completely free way to do so without paying for an autoresponder.

Now, we do strongly suggest that down the line you do invest in your own autoresponder. **Services like Aweber and Get Response integrate seamlessly with JV Zoo.** As soon as the person purchases the product, you can have them added to your email list. With the free service we cover here, you won't have that luxury.

In the following lesson, you will see how to capture the names and emails of your buyer's. It will help you to build a more sustainable business. It also helps to reduce the support requests from people due to lost downloads. You can actually send people straight to a location where they can download the content.

It will help you to work better and to make more money from your buyers. It will also allow you to follow up with relevant offers that you promote for commissions. **The best free autoresponders that you can use for setting up squeeze pages is at [www.listwire.com](http://www.listwire.com).** This will help you to collect the data from the traffic of those with an interest of what you have to offer.

This is a service that was created by an internet marketer. He uses his own email servers. He developed this platform. He works hard to make sure it stays up for his own business and to help others. It is up to date and it does a wonderful job. It is also absolutely free for you to use [www.listwire.com](http://www.listwire.com) for your autoresponder.

When you go to their page, click on the area that says Click Here to Sign Up. We will go there in just a moment and take you through the process of using [www.listwire.com](http://www.listwire.com).

The screenshot shows the Listwire website interface. At the top is a navigation bar with the Listwire logo and links for home, features, about us, login, sign up, and support. Below the navigation bar is a login section with fields for username and password, and a login button. The main content area features a client testimonial on the left and a large video player in the center. The video player has a title, a description, and a 'click play' button. At the bottom of the page, there is a 'click here to Signup Now!' button with the tagline 'it's fast, and it's free!'. A red arrow points to this button from the left.

After 8 Years of Testing

"I can honestly say I have found the best free Autoresponder tool on the net. Trust me I know as I have been testing free AR's for 8 years and nothing compares to Listwire, This is an amazing tool that works for your business from day one. Not only that its so easy to use and great support in the listwire forum

I could go on and tell you what AR's not to use. I have tried them all, I even hosted my own on my domain, Not recommended lol This is the best online by a long shot. So Thanks

Peace"
