

No Cost Income Stream Blueprint

Part 36: Freelancing - Micro Job Sites

LEGAL NOTICE: The Publishers have strived to be as accurate and complete as possible in the creation of this report, notwithstanding the fact that they do not warrant or represent at any time that the contents within are accurate due to the rapidly changing nature of the Internet.

While all attempts have been made to verify information provided in this publication, the Publisher assumes no responsibility for errors, omissions, or contrary interpretation of the subject matter herein. Any perceived slights of specific persons, peoples, or organizations are unintentional.

In practical advice books, like anything else in life, there are no guarantees of income made or any other specific results. Readers are cautioned to rely on their own judgment about their individual circumstances to act accordingly.

This publication is not intended for use as a source of legal, business, accounting or financial advice. All readers are advised to seek services of competent professionals in legal, business, accounting, and finance fields.

This is part #4 of No Cost Freelancing and I will be talking about micro job sites in this lesson. In part #1, we learned what freelancing is and what types of services you can offer for people. In part #2, we covered freelancing websites and the thousands of potential jobs they offer for you. In part #3, we offered freelancing tips you can incorporate to find more freelancing jobs and to win bids.

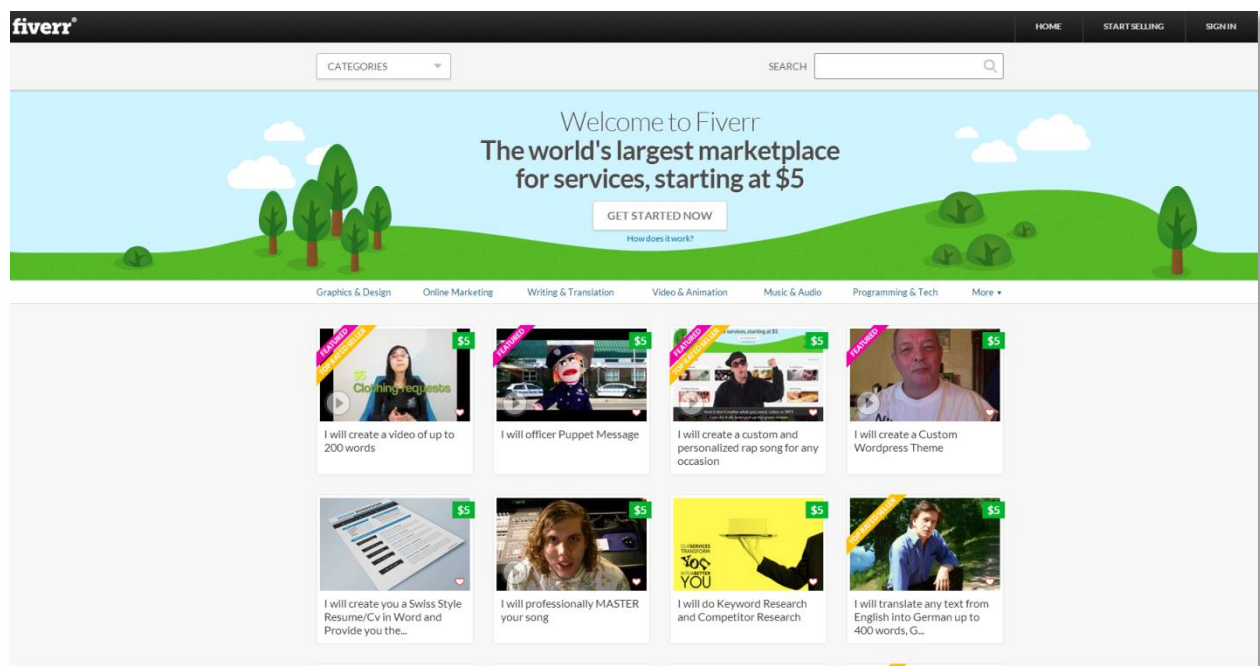

This part is really going to open your eyes to even more opportunities you can tap into as a freelancer. Once we get done with this module, you are going to realize **there are literally an unbelievable amount of opportunity for you to make money as a freelancer**. The beauty of all of it is that it isn't going to cost you anything to get started.

Just so we are clear here; micro job sites are small gig sites. They aren't full blown freelance site like those we have covered. They are an excellent way to kick start your freelance income or career. You can use the methods mentioned in part #3 and the micro job sites themselves to generate the revenue. You can have multiple methods of passive income that just rolls in month after month for you.

Make money at the same time with freelance sites and micro job sites. **These smaller sites offer jobs that you can get small fees for**. For example, you will be writing jobs of just a few articles rather than in batches of 10 or 20 at a time. You may create just one article at a time or one logo for them.

You can create a short testimonial video for someone or keyword research. Design an e-book cover or install WordPress, etc.

You can find on the micro job sites ways to make money that you can't really do on the larger freelance sites. One of the most popular ones is www.fiverr.com. It is one of the most popular sites in the world to get something done for a price starting at \$5! For example, people will create a video or a WordPress for \$5.

The possibilities are endless, and you can post what you are willing to offer. If there is a service, you can post it. If you have any bizarre skills, post it at www.fiverr.com as they are very popular. One guy can translate a text from English to German up to 500 words for \$5.

She is able to offer them additional submissions for that additional price. So that is how you get around that \$5 cap. You can see from the pricing that she has added on extras that make it worth the value. She can offer a press release that is able to get published and that is really an inexpensive price. She will also submit it for distribution for an additional \$50.

Note: No risky content or tiered money programs please. Distribution is no guarantee that your press release will get picked up by the media. Distribution puts your press release on the news wire for the media's consideration.

Instead of a \$5 gig here, she is able to offer a variety of services. The gig gets people involved in what she has to offer. However, it can quickly become a \$50 or more purchase for a person that she is going to work for. Take notes here on how this works because **Fiverr is really good about allowing you to add on such extras and you want to benefit from them.**

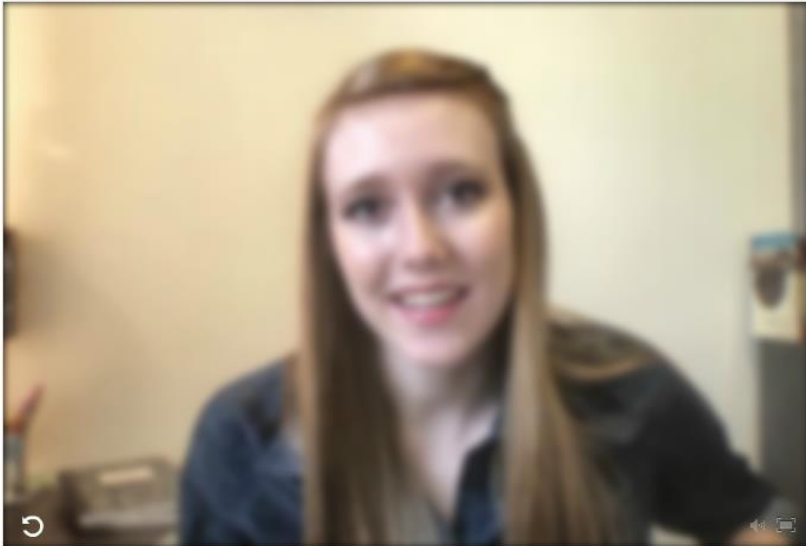

She is able to make this into a full time opportunity for herself with these up sales by offering such types of services. Press release services do very well on various freelance sites and micro job sites.

Another lady is doing very well on her blog that she writes daily. For \$5, she will mention your blog there too. So that is an inexpensive way for you to get some exposure for your blog. She is already writing her blog, so she is making money without doing much at all but plugging that blog link for her readers to follow.

I will advertise for YOU on my daily blog for \$5

Once you are set up on Fiverr, post to your social media accounts. Let your friends and other contents know what you offer there. Another site to look at that is very established is similar, called www.fourerr.com, and as you can guess the price is \$4.

The screenshot displays the Gigbucks website interface. At the top, the 'Gigbucks' logo is prominent on the left, while navigation links for 'Home', 'Join', 'Sign In', and a 'Log In' button with a Facebook icon are on the right. A 'NEW OFFER' button is located at the bottom of this list. To the right of the offers, a large banner shows a diverse group of people holding a sign that reads 'Gigbucks Buy & Sell Services from \$5 to \$50 Bucks!'. Below the banner, a filter bar allows users to sort by Date, Popularity, Rating, Price, and Verified Accounts. These include: 1) 'I will Give you 450 Internet Marketing and SEO Tools t... for \$5' by betaservices (Level 3, Verified Account); 2) 'I will Get you 5,000 Facebook Likes OR 10,000 YouTube ... for \$5' by farhan511 (Level 3, Verified Account); 3) 'I will Guide On You How I Make \$400 a Day on Craigslist for \$5' by betaservices (Level 3, Verified Account); 4) 'I will add 10000 REAL active non drop likes for facebo... for \$10' by javawa (Level 3, Verified Account); and 5) 'I will give 20000+ Real Twitter followers or 2000 face... for \$5' by thilina36 (Level 2). You can click on it and you will find listings where you can complete small jobs. One of them is to bid for up to \$20 to offer advice or something on what someone is seeking. **With this tool, you will find that few people know about it. If you are the first or one of the first to bid, then you can attract that buyer and get the job.**

They do this because they don't want to take the time to go through all the gigs and find someone. So they reach out to others and they hope that bidders will come to them. Another similar type of site is www.imgigz.com (im is for Internet Marketing). You won't find off the wall stuff here but you will find plenty of services that can be offered that buyers want.

If you were to do a search for PLR that you have on your hard drive, you can offer it for \$5. You already have the rights to give it away. Browse through www.imgigz.com and you will see plenty of possibilities for you. Another one to look at is www.seoclerks.com.

The screenshot displays the homepage of seoclerks.com, a platform for buying and selling digital services. The header includes the site logo, navigation links (HOME, COMMUNITY, SELL A SERVICE, SIGN IN, JOIN), and social media icons. A search bar and a 'Categories' dropdown are also present. The main content area is titled 'Writing' and features a list of services for sale, each with a profile picture, service title, description, seller name, and a red 'Order Now' button. The services include:

- Single Copyscape pass High Quality 500 Words article for \$6** by *sspservices* (10 thumbs up, 2 hearts, 991 views).

- Get 120+ optimized Cats PLR Article Pack for \$5** by *IMmonkey* (0 thumbs up, 0 hearts, 258 views).

On the right side, there is a 'Categories' sidebar with a search bar and a list of categories including Marketplace, recent, Accounts (380), Article Translating (211), Article Writing (1,845), Audio & Music (549), Banner Ads (157), Blackhat/Bulk Links (14,361), Blogs (906), Body Ads (48), Design (1,738), Directory Submission (295), Forums (435), and Graphics (819).

Here, SEO stands for Search Engine Optimization. This is a site dedicated to this type of work to help someone maximize the potential of their website.

For example, someone is charging \$6 to do a signal Copyscape of an article up to 500 words. She has a good headline and she has an image photo on her account. Copyscape is a good deal because people want to make sure that what they pay for is high quality, unique and not copied or rehashed. For an extra \$2, she will get you the article within 24 hours.

These are small, small jobs such as linking a Facebook page. They pay very little but it all adds up. You may be asked to find a phrase and click a link. You may be asked to do a Google search and then click on a listing and stay on the page for 30 seconds. They may be paying you for that because they are doing what it takes to show to Amazon and Google that their product is getting attention.

They can ask you to follow someone on Twitter or to retweet something. They may ask you comment on Yahoo Answers to a given question. These are very simple services that you can do for people. **Again, these jobs don't pay very much but they are simple to complete and the money does add up.**

If you can post on social media, write articles, and if you can work your computer you can do these micro gig tasks. A very popular one is from Amazon called www.mturk.com and you will be able to make money through doing various tasks. On the left hand side, you can sign up and then see the types of jobs. It is very similar to www.clickchores.com.

The action step for this lesson is to sign up for one micro job site. Doesn't matter which one you prefer. Start taking action getting some work and seeing some revenue for yourself. **If you choose Fiverr, I hope that you consider doing gig extras.** This will really allow you to expand on the services you provide and the money you can make.
