

No Cost Product Launch

Part 7: Setup Downloads

Product Launch Step #7: Download Pages

- To deliver your digital product you will need a download page.
- This is a simple way for the customer to get your files.
- You can also upload your file to JVZoo, and have your customer download the file.
- Creating a free download page through Wix.com or Weebly.com is the best way to control your offers.
- You can even put upsell offers or affiliate offers.
- We will demonstrate how to setup your files for download.
