

No Cost Freelancing

Part 6: Accepting Payments

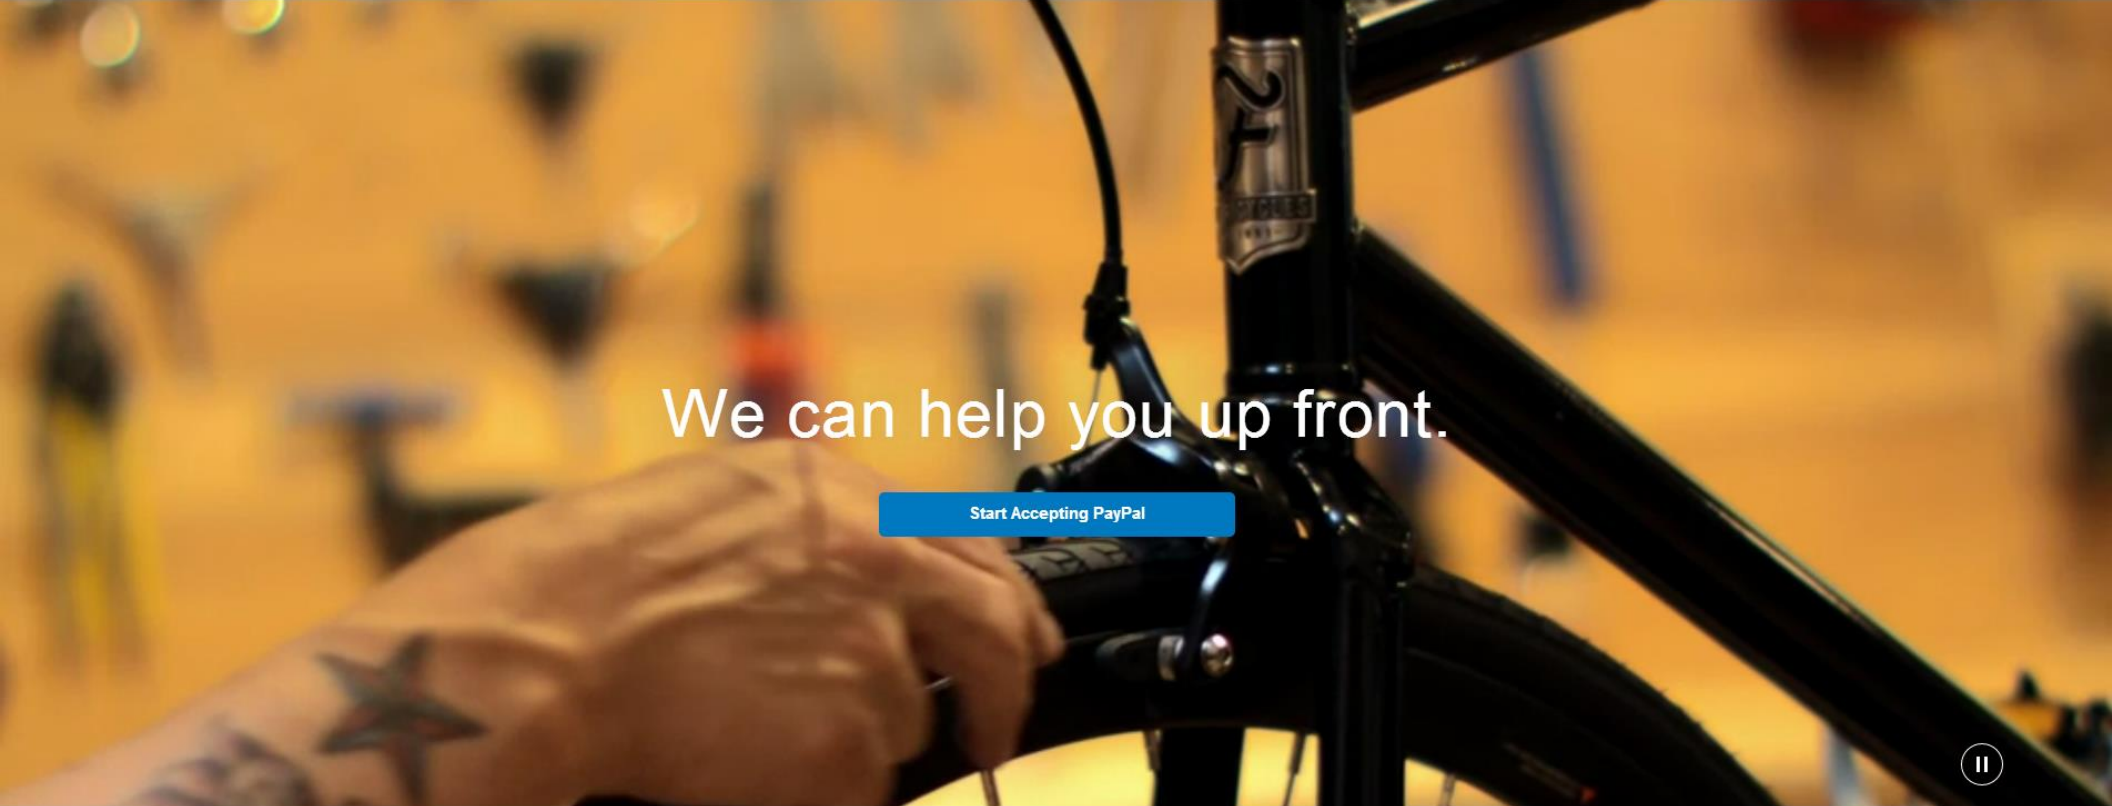

No Cost Freelancing – Accepting Payments

- Most freelance sites take care of payments for you.
- Micro job sites do the same.
- Work you find on Craigslist, classifieds, or on forums will require a payment system.
- Easiest one is Paypal – www.paypal.com
- If Paypal does not work in your country try www.bluesnap.com
- If neither option works stick with a freelancing site.
